(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended July 31, 2021

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number 001-14505

KORN FERRY

(Exact Name of Registrant as Specified in its Charter)

Delaware

(State or Other Jurisdiction of Incorporation or Organization)

95-2623879

(I.R.S. Employer Identification No.)

1900 Avenue of the Stars, Suite 2600, Los Angeles, California 90067

(Address of principal executive offices) (Zip Code)

(310) 552-1834

(Registrant's telephone number, including area code)

Securities Registered Pursuant to Section 12(b) of the Act:

Title of Each Class	Trading Symbol(s)	Name of Each Exchange on Which Registered
Common Stock, par value \$0.01 per share	KFY	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒

Accelerated filer ☐

Non-accelerated filer ☐

Smaller reporting company ☐

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The number of shares outstanding of our common stock as of September 2, 2021 was 54,506,010 shares.

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021

#### 1. Organization and Summary of Significant Accounting Policies

##### **Nature of Business**

Korn Ferry, a Delaware corporation, and its subsidiaries (the "Company") is a global organizational consulting firm. The Company helps clients synchronize strategy and talent to drive superior performance. The Company works with organizations to design their structures, roles and responsibilities. The Company helps organizations hire the right people to bring their strategy to life and advise them on how to reward, develop and motivate their people.

The Company is pursuing a strategy that will help Korn Ferry to focus on clients and collaborate intensively across the organization. This approach builds on the best of the Company's past and gives the Company a clear path to the future with focused initiatives to increase its client and commercial impact. Korn Ferry is transforming how clients address their talent management needs. The Company has evolved from a mono-line to a diversified business, giving its consultants more frequent and expanded opportunities to engage with clients.

The Company has seven reportable segments that operate through the following four lines of business:

1. **Consulting** aligns organization structure, culture, performance and people to drive sustainable growth by addressing four fundamental needs: Organizational Strategy, Assessment and Succession, Leadership and Professional Development, and Total Rewards. This work is supported by a comprehensive range of some of the world's leading intellectual property ("IP") and data.
2. **Digital** leverages an artificial intelligence powered machine-learning platform to identify structure, roles, capabilities and behaviors needed to drive business forward. This end-to-end system combines Korn Ferry proprietary data, client data and external market data to generate insight and recommend action.
3. **Executive Search** helps organizations recruit board level, chief executive and other senior executive and general management talent. Behavioral interviewing and proprietary assessments are used to determine ideal organizational fit, and salary benchmarking builds appropriate frameworks for compensation and retention. This business is managed and reported on a geographic basis and represents four of the Company's reportable segments (Executive Search North America, Executive Search EMEA, Executive Search Asia Pacific and Executive Search Latin America).
4. **Recruitment Process Outsourcing ("RPO") & Professional Search** combines people, process expertise and IP-enabled technology to deliver enterprise talent acquisition solutions to clients. Transaction sizes range from single professional searches to team, department and line of business projects, and global outsource recruiting solutions.

##### **Basis of Consolidation and Presentation**

The accompanying financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Annual Report on Form 10-K for the year ended April 30, 2021 for the Company and its wholly and majority owned/controlled domestic and international subsidiaries. All intercompany balances and transactions have been eliminated in consolidation. The preparation of the consolidated financial statements conform with United States ("U.S.") generally accepted accounting principles ("GAAP") and prevailing practice within our different industries. The consolidated financial statements include all adjustments, consisting of normal recurring accruals and any other adjustments that management considers necessary for a fair presentation of the results for these periods. The results of operations for the interim period are not necessarily indicative of the results for the entire fiscal year.

The Company has control of a Mexican subsidiary and consolidates the operations of this subsidiary. Noncontrolling interest, which represents the Mexican partners' 51% interest in the Mexican subsidiary, is reflected on the Company's consolidated financial statements.

The Company considers events or transactions that occur after the balance sheet date but before the consolidated financial statements are issued to provide additional evidence relative to certain estimates or to identify matters that require additional disclosures.

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

#### ***Use of Estimates and Uncertainties***

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates, and changes in estimates are reported in current operations as new information is learned or upon the amounts becoming fixed or determinable. The most significant areas that require management's judgment are revenue recognition, deferred compensation, annual performance-related bonuses, evaluation of the carrying value of receivables, goodwill and other intangible assets, share-based payments, leases and the recoverability of deferred income taxes.

#### ***Revenue Recognition***

Substantially all fee revenue is derived from talent and organizational consulting services and digital sales, stand-alone or as part of a solution, fees for professional services related to executive and professional recruitment performed on a retained basis and RPO, either stand-alone or as part of a solution.

Revenue is recognized when control of the goods and services are transferred to the customer in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods and services. Revenue contracts with customers are evaluated based on the five-step model outlined in Accounting Standard Codification ("ASC") 606 ("ASC 606"): 1) identify the contract with a customer; 2) identify the performance obligation(s) in the contract; 3) determine the transaction price; 4) allocate the transaction price to the separate performance obligation(s); and 5) recognize revenue when (or as) each performance obligation is satisfied.

Consulting fee revenue is primarily recognized as services are rendered, measured by total hours incurred as a percentage of the total estimated hours at completion. It is possible that updated estimates for consulting engagements may vary from initial estimates with such updates being recognized in the period of determination. Depending on the timing of billings and services rendered, the Company accrues or defers revenue as appropriate.

Digital fee revenue is generated from IP platforms enabling large-scale, technology-based talent programs for pay, talent development, engagement, and assessment and is consumed directly by an end user or indirectly through a consulting engagement. Revenue is recognized as services are delivered and the Company has a legally enforceable right to payment. Revenue also comes from the sale of the Company's proprietary IP subscriptions, which are considered symbolic IP due to the dynamic nature of the content. As a result, revenue is recognized over the term of the contract. Functional IP licenses grant customers the right to use IP content via the delivery of a flat file. Because the IP content license has significant stand-alone functionality, revenue is recognized upon delivery and when an enforceable right to payment exists. Revenue for tangible and digital products sold by the Company, such as books and digital files, is recognized when these products are shipped.

Fee revenue from executive and professional search activities is generally one-third of the estimated first-year cash compensation of the placed candidate, plus a percentage of the fee to cover indirect engagement-related expenses. In addition to the search retainer, an uptick fee is billed when the actual compensation awarded by the client for a placement is higher than the estimated compensation. In the aggregate, upticks have been a relatively consistent percentage of the original estimated fee; therefore, the Company estimates upticks using the expected value method based on historical data on a portfolio basis. In a standard search engagement, there is one performance obligation, which is the promise to undertake a search. The Company generally recognizes such revenue over the course of a search and when it is legally entitled to payment as outlined in the billing terms of the contract. Any revenues associated with services that are provided on a contingent basis are recognized once the contingency is resolved, as this is when control is transferred to the customer. These assumptions determine the timing of revenue recognition for the reported period.

RPO fee revenue is generated through two distinct phases: 1) the implementation phase and 2) the post-implementation recruitment phase. The fees associated with the implementation phase are recognized over the period that the related implementation services are provided. The post-implementation recruitment phase represents end-to-end recruiting services to clients for which there are both fixed and variable fees, which are recognized over the period that the related recruiting services are performed.

#### ***Reimbursements***

The Company incurs certain out-of-pocket expenses that are reimbursed by its clients, which are accounted for as revenue in the consolidated statements of operations.

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

#### **Allowance for Doubtful Accounts**

An allowance is established for doubtful accounts by taking a charge to general and administrative expenses. The Company's expected credit loss allowance methodology for accounts receivable is developed using historical collection experience, current and future economic and market conditions and a review of the current status of customers' trade accounts receivable. Due to the short-term nature of such receivables, the estimate of amount of accounts receivable that may not be collected is primarily based on historical loss-rate experience. When required, the Company adjusts the loss-rate methodology to account for current conditions and reasonable and supportable expectations of future economic and market conditions. The Company generally assesses future economic condition for a period of sixty to ninety days, which corresponds with the contractual life of its accounts receivables. After the Company exhausts all collection efforts, the amount of the allowance is reduced for balances written off as uncollectible.

#### **Cash and Cash Equivalents**

The Company considers all highly liquid investments with original maturities of three months or less from the date of purchase to be cash equivalents. As of July 31, 2021 and April 30, 2021, the Company's investments in cash equivalents consisted of money market funds and as of April 30, 2021 also included commercial paper with initial maturity of less than 90 days for which market prices are readily available.

#### **Marketable Securities**

The Company currently has investments in marketable securities and mutual funds that are classified as either equity securities or available-for-sale debt securities. The classification of the investments in these marketable securities and mutual funds is assessed upon purchase and reassessed at each reporting period. These investments are recorded at fair value and are classified as marketable securities in the accompanying consolidated balance sheets. The investments that the Company may sell within the next 12 months are carried as current assets.

The Company invests in mutual funds (for which market prices are readily available) that are held in trust to satisfy obligations under the Company's deferred compensation plans. Such investments are classified as equity securities and mirror the employees' investment elections in their deemed accounts in the Executive Capital Accumulation Plan and similar plans in Asia Pacific and Canada ("ECAP") from a pre-determined set of securities. Realized gains (losses) on marketable securities are determined by specific identification. Interest is recognized on an accrual basis; dividends are recorded as earned on the ex-dividend date. Interest, dividend income and the changes in fair value in marketable securities are recorded in the accompanying consolidated statements of operations in other income, net.

The Company also invests cash in excess of its daily operating requirements and capital needs primarily in marketable fixed income (debt) securities in accordance with the Company's investment policy, which restricts the type of investments that can be made. The Company's investment portfolio includes commercial paper, corporate notes/bonds and US Treasury and Agency securities. These marketable fixed income (debt) securities are classified as available-for-sale securities based on management's decision, at the date such securities are acquired, not to hold these securities to maturity or actively trade them. The Company carries these marketable debt securities at fair value based on the market prices for these marketable debt securities or similar debt securities whose prices are readily available. The changes in fair values, net of applicable taxes, are recorded as unrealized gains or losses as a component of comprehensive income unless the change is due to credit loss. A credit loss is recorded in the statements of operations in other income, net; any amount in excess of the credit loss is recorded as unrealized losses as a component of comprehensive income. Generally, the amount of the loss is the difference between the cost or amortized cost and its then current fair value; a credit loss is the difference between the discounted expected future cash flows to be collected from the debt security and the cost or amortized cost of the debt security. During the three months ended July 31, 2021 and 2020, no amount was recognized as a credit loss for the Company's available for sales debt securities.

#### **Fair Value of Financial Instruments**

Fair value is the price the Company would receive to sell an asset or transfer a liability (exit price) in an orderly transaction between market participants. For those assets and liabilities recorded or disclosed at fair value, the Company determines the fair value based upon the quoted market price, if available. If a quoted market price is not available for identical assets, the fair value is based upon the quoted market price of similar assets. The fair values are assigned a level within the fair value hierarchy as defined below:

- **Level 1:** Observable inputs such as quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- **Level 2:** Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- **Level 3:** Unobservable inputs that reflect the reporting entity's own assumptions.

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

As of July 31, 2021 and April 30, 2021, the Company held certain assets that are required to be measured at fair value on a recurring basis. These included cash, cash equivalents, accounts receivable, marketable securities and foreign currency forward contracts. The carrying amount of cash, cash equivalents and accounts receivable approximates fair value due to the short-term maturity of these instruments. The fair values of marketable securities classified as equity securities are obtained from quoted market prices, and the fair values of marketable securities classified as available-for-sale and foreign currency forward contracts are obtained from a third party, which are based on quoted prices or market prices for similar assets and financial instruments.

#### ***Foreign Currency Forward Contracts Not Designated as Hedges***

The Company has established a program that primarily utilizes foreign currency forward contracts to offset the risks associated with the effects of certain foreign currency exposures primarily originating from intercompany balances due to cross border work performed in the ordinary course of business. These foreign currency forward contracts are neither used for trading purposes nor are they designated as hedging instruments pursuant to ASC 815. Accordingly, the fair value of these contracts is recorded as of the end of the reporting period in the accompanying consolidated balance sheets, while the change in fair value is recorded to the accompanying consolidated statements of operations.

#### ***Business Acquisitions***

Business acquisitions are accounted for under the acquisition method. The acquisition method requires the reporting entity to identify the acquirer, determine the acquisition date, recognize and measure the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquired entity, and recognize and measure goodwill or a gain from the purchase. The acquiree's results are included in the Company's consolidated financial statements from the date of acquisition. Assets acquired and liabilities assumed are recorded at their fair values and the excess of the purchase price over the amounts assigned is recorded as goodwill, or if the fair value of the assets acquired exceeds the purchase price consideration, a bargain purchase gain is recorded. Adjustments to fair value assessments are generally recorded to goodwill over the measurement period (not longer than 12 months). The acquisition method also requires that acquisition-related transaction and post-acquisition restructuring costs be charged to expense as committed and requires the Company to recognize and measure certain assets and liabilities including those arising from contingencies and contingent consideration in a business combination. During the three months ended July 31, 2020, the Company recorded an adjustment of \$0.4 million to reduce goodwill and increase deferred tax assets from the acquisition of Miller Heiman Group, Achieve Forum and Strategy Execution (the "Acquired Companies") completed on November 1, 2019. The measurement period for the Acquired Companies is closed.

#### ***Leases***

The Company determines if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use ("ROU") assets and current and non-current operating lease liability, in the consolidated balance sheets. Finance leases are included in property and equipment, net, other accrued liabilities and other liabilities in the consolidated balance sheets.

ROU assets represent the Company's right to use an underlying asset for the lease term, and the lease liabilities represent the Company's obligation to make lease payments arising from the lease. Operating lease ROU assets and operating lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term on the commencement date. As most of the Company's leases do not provide an implicit rate, the Company uses its estimated incremental borrowing rate based on the information available at the commencement date in determining the present value of future payments. The operating lease ROU asset also includes any lease payments made and excludes lease incentives and initial direct costs incurred. Lease terms may include options to extend or terminate the lease when it is reasonably certain that the Company will exercise that option. Lease expense for minimum lease payments is recognized on a straight-line basis over the lease term, with variable lease payments recognized in the periods in which they are incurred.

The Company has lease agreements with lease and non-lease components. For all leases with non-lease components the Company accounts for the lease and non-lease components as a single lease component.

#### ***Impairment of Long-Lived Assets***

Long-lived assets include property, equipment, ROU assets and software developed or obtained for internal use. In accordance with ASC 360 *Property, Plant and Equipment*, management reviews the Company's recorded long-lived assets for impairment annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be fully recoverable. Events relating to recoverability may include significant unfavorable changes in business conditions, recurring losses, or a forecasted inability to achieve break-even operating results over an extended period. The Company determines the extent to which an asset may be impaired based upon its expectation of the asset's future usability, as well as on a reasonable assurance that the future cash flows associated with the asset will be in excess of its carrying amount. If the total of the expected undiscounted future cash flows is less than the carrying amount of the asset, a loss is recognized for the difference between fair value and the carrying value of the asset. During the three months ended July 31, 2021 and 2020 there were no impairment charges recorded.

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

#### **Goodwill and Intangible Assets**

Goodwill represents the excess of the purchase price over the fair value of assets acquired. The goodwill impairment test compares the fair value of a reporting unit with its carrying amount, including goodwill. If the carrying amount of a reporting unit exceeds its fair value, goodwill of the reporting unit would be considered impaired. To measure the amount of the impairment loss, the implied fair value of a reporting unit's goodwill is compared to the carrying amount of that goodwill. If the carrying amount of a reporting unit's goodwill exceeds the fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess. For each of these tests, the fair value of each of the Company's reporting units is determined using a combination of valuation techniques, including a discounted cash flow methodology. To corroborate the discounted cash flow analysis performed at each reporting unit, a market approach is utilized using observable market data such as comparable companies in similar lines of business that are publicly traded or which are part of a public or private transaction (to the extent available). Goodwill is tested for impairment annually and more frequently if events or changes in circumstances indicate that it is more likely than not that the asset is impaired. Results of the annual qualitative impairment test performed as of January 31, 2021, indicated that the fair value of each of the reporting units exceeded its carrying amount and no reporting units were at risk of failing the impairment test. As a result, no impairment charge was recognized. As of July 31, 2021 and April 30, 2021, there were no indicators of impairment with respect to the Company's goodwill.

Intangible assets primarily consist of customer lists, non-compete agreements, proprietary databases and IP. Intangible assets are recorded at their estimated fair value at the date of acquisition and are amortized in a pattern in which the asset is consumed, if that pattern can be reliably determined, or using the straight-line method over their estimated useful lives, which range from one to 24 years. For intangible assets subject to amortization, an impairment loss is recognized if the carrying amount of the intangible assets is not recoverable and exceeds fair value. The carrying amount of the intangible assets is considered not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from use of the asset. The Company reviewed its intangible assets and noted no impairment as of July 31, 2021 and April 30, 2021.

#### **Compensation and Benefits Expense**

Compensation and benefits expense in the accompanying consolidated statements of operations consist of compensation and benefits paid to consultants (employees who originate business), executive officers and administrative and support personnel. The most significant portions of this expense are salaries and the amounts paid under the annual performance-related bonus plan to employees. The portion of the expense applicable to salaries is comprised of amounts earned by employees during a reporting period. The portion of the expenses applicable to annual performance-related bonuses refers to the Company's annual employee performance-related bonus with respect to a fiscal year, the amount of which is communicated and paid to each eligible employee following the completion of the fiscal year.

Each quarter, management makes its best estimate of its annual performance-related bonuses, which requires management to, among other things, project annual consultant productivity (as measured by engagement fees billed and collected by Executive Search consultants and revenue and other performance/profitability metrics for Consulting, Digital and RPO & Professional Search consultants), the level of engagements referred by a consultant in one line of business to a different line of business, and Company performance, including profitability, competitive forces and future economic conditions and their impact on the Company's results. At the end of each fiscal year, annual performance-related bonuses take into account final individual consultant productivity (including referred work), Company/line of business results, including profitability, the achievement of strategic objectives, the results of individual performance appraisals and the current economic landscape. Accordingly, each quarter the Company reevaluates the assumptions used to estimate annual performance-related bonus liability and adjusts the carrying amount of the liability recorded on the consolidated balance sheet and reports any changes in the estimate in current operations.

Because annual performance-based bonuses are communicated and paid only after the Company reports its full fiscal year results, actual performance-based bonus payments may differ from the prior year's estimate. Such changes in the bonus estimate historically have been immaterial and are recorded in current operations in the period in which they are determined. The performance-related bonus expense was \$96.0 million and \$59.9 million during the three months ended July 31, 2021 and 2020, respectively, included in compensation and benefits expense in the consolidated statements of operations.

Other expenses included in compensation and benefits expense are due to changes in deferred compensation and pension plan liabilities, changes in cash surrender value ("CSV") of company-owned life insurance ("COLI") contracts, amortization of stock-based compensation awards, payroll taxes and employee insurance benefits. Unearned compensation on the consolidated balance sheets includes long-term retention awards that are generally amortized over four-to-five years.

#### **Restructuring Charges, Net**

The Company accounts for its restructuring charges as a liability when the obligations are incurred and records such charges at fair value. Changes in the estimates of the restructuring charges are recorded in the period the change is determined.

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

#### **Stock-Based Compensation**

The Company has employee compensation plans under which various types of stock-based instruments are granted. These instruments principally include restricted stock units, restricted stock and an Employee Stock Purchase Plan ("ESPP"). The Company recognizes compensation expense related to restricted stock units, restricted stock and the estimated fair value of stock purchases under the ESPP on a straight-line basis over the service period for the entire award.

#### **Recently Adopted Accounting Standards**

In March 2020, the Financial Accounting Standards Board issued guidance on Facilitation of the Effects of Reference Rate Reform on Financial Reporting. This guidance provides optional expedients and exceptions to the guidance on contract modifications and hedge accounting related to the expected market transition from the London Interbank Offered Rate ("LIBOR") and other interbank offered rates to alternative rates. Entities can elect to adopt this guidance as of any date within an interim period that includes or is subsequent to March 12, 2020 and can adopt it for new contracts and contract modifications entered into through December 31, 2022. The Company adopted this guidance in its fiscal year beginning May 1, 2021 and the Company elected to apply the amendments prospectively through December 12, 2022. The adoption of this guidance did not have a material impact on the consolidated financial statements.

#### **2. Basic and Diluted Earnings (Loss) Per Share**

ASC 260, *Earnings Per Share*, requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividends prior to vesting as a separate class of securities in calculating earnings (loss) per share. The Company has granted and expects to continue to grant to certain employees under its restricted stock agreements grants that contain non-forfeitable rights to dividends. Such grants are considered participating securities. Therefore, the Company is required to apply the two-class method in calculating earnings (loss) per share. The two-class method of computing earnings (loss) per share is an earnings allocation formula that determines earnings (loss) per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings. The dilutive effect of participating securities is calculated using the more dilutive of the treasury method or the two-class method.

Basic earnings (loss) per common share was computed using the two-class method by dividing basic net earnings (loss) attributable to common stockholders by the weighted-average number of common shares outstanding. Diluted earnings (loss) per common share was computed using the two-class method by dividing diluted net earnings (loss) attributable to common stockholders by the weighted-average number of common shares outstanding plus dilutive common equivalent shares. Dilutive common equivalent shares include all in-the-money outstanding options or other contracts to issue common stock as if they were exercised or converted. Financial instruments that are not in the form of common stock, but when converted into common stock increase earnings per share, are anti-dilutive and are not included in the computation of diluted earnings (loss) per share. For the three months ended July 31, 2020, the Company was in a net loss position and diluted net loss per share therefore excluded the effects of common equivalents consisting of restricted awards, which were all antidilutive.

During the three months ended July 31, 2021 and 2020, restricted stock awards of 1.4 million and 1.7 million were outstanding, respectively, but not included in the computation of diluted earnings (loss) per share because they were anti-dilutive.

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

The following table summarizes basic and diluted earnings (loss) per common share attributable to common stockholders:

	Three Months Ended July 31,	
	2021	2020
	(in thousands, except per share data)	
<b>Net income (loss) attributable to Korn Ferry</b>	\$ 74,823	\$ (30,833 )
Less: distributed and undistributed earnings to nonvested restricted stockholders	1,897	144
<b>Basic net earnings (loss) attributable to common stockholders</b>	72,926	(30,977 )
Add: undistributed earnings to nonvested restricted stockholders	1,725	—
Less: reallocation of undistributed earnings to nonvested restricted stockholders	1,707	—
<b>Diluted net earnings (loss) attributable to common stockholders</b>	<u>\$ 72,944</u>	<u>\$ (30,977 )</u>
<b>Weighted-average common shares outstanding:</b>		
Basic weighted-average number of common shares outstanding	52,760	53,264
Effect of dilutive securities:		
Restricted stock	558	—
ESPP	2	—
Diluted weighted-average number of common shares outstanding	<u>53,320</u>	<u>53,264</u>
<b>Net earnings (loss) per common share:</b>		
Basic earnings (loss) per share	\$ 1.38	\$ (0.58 )
Diluted earnings (loss) per share	<u>\$ 1.37</u>	<u>\$ (0.58 )</u>

### 3. Comprehensive Income (Loss)

Comprehensive income (loss) is comprised of net income (loss) and all changes to stockholders' equity, except those changes resulting from investments by stockholders (changes in paid in capital) and distributions to stockholders (dividends) and is reported in the accompanying consolidated statements of comprehensive income (loss). Accumulated other comprehensive loss, net of taxes, is recorded as a component of stockholders' equity.

The components of accumulated other comprehensive loss, net were as follows:

	July 31, 2021	April 30, 2021
	(in thousands)	
Foreign currency translation adjustments	\$ (42,034 )	\$ (33,666 )
Deferred compensation and pension plan adjustments, net of tax	(17,794 )	(18,135 )
Marketable securities unrealized loss, net of tax	(15 )	(19 )
Accumulated other comprehensive loss, net	<u>\$ (59,843 )</u>	<u>\$ (51,820 )</u>

The following table summarizes the changes in each component of accumulated other comprehensive loss, net for the three months ended July 31, 2021:

	Foreign Currency Translation	Deferred Compensation and Pension Plan (1)	Unrealized Losses on Marketable Securities	Accumulated Other Comprehensive Loss
	(in thousands)			
Balance as of April 30, 2021	\$ (33,666 )	\$ (18,135 )	\$ (19 )	\$ (51,820 )
Unrealized (losses) gains arising during the period	(8,368 )	—	3	(8,365 )
Reclassification of realized net losses to net income	—	341	1	342
Balance as of July 31, 2021	<u>\$ (42,034 )</u>	<u>\$ (17,794 )</u>	<u>\$ (15 )</u>	<u>\$ (59,843 )</u>

(1) The tax effect on the reclassifications of realized net losses was \$0.1 million for the three months ended July 31, 2021.

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

The following table summarizes the changes in each component of accumulated other comprehensive loss, net for the three months ended July 31, 2020:

	Foreign Currency Translation	Deferred Compensation and Pension Plan (1)	Unrealized Gains on Marketable Securities	Accumulated Other Comprehensive Loss
	(in thousands)			
Balance as of April 30, 2020	\$ (83,652)	\$ (23,554)	\$ 34	\$ (107,172)
Unrealized gains (losses) arising during the period	24,947	—	(9)	24,938
Reclassification of realized net losses to net income	—	642	—	642
Balance as of July 31, 2020	<u>\$ (58,705)</u>	<u>\$ (22,912)</u>	<u>\$ 25</u>	<u>\$ (81,592)</u>

(1) The tax effect on the reclassifications of realized net losses was \$0.2 million for the three months ended July 31, 2020.

#### 4. Employee Stock Plans

##### Stock-Based Compensation

The following table summarizes the components of stock-based compensation expense recognized in the Company's consolidated statements of operations for the periods indicated:

	Three Months Ended July 31,	
	2021	2020
	(in thousands)	
Restricted stock	\$ 6,962	\$ 5,813
ESPP	196	152
Total stock-based compensation expense	<u>\$ 7,158</u>	<u>\$ 5,965</u>

##### Stock Incentive Plan

At the Company's 2019 Annual Meeting of Stockholders, held on October 3, 2019, the Company's stockholders approved an amendment and restatement to the Korn Ferry Amended and Restated 2008 Stock Incentive Plan (the 2019 amendment and restatement being the "Fourth A&R 2008 Plan"), which, among other things, eliminated the fungible share counting provision and decreased the total number of shares of the Company's common stock available for stock-based awards by 2,141,807 shares, leaving 3,600,000 shares available for issuance, subject to certain changes in the Company's capital structure and other extraordinary events. The Fourth A&R 2008 Plan was also amended to generally require a minimum one-year vesting for all future awards, and provides for the grant of awards to eligible participants, designated as either nonqualified or incentive stock options, restricted stock and restricted stock units, any of which are market-based, and incentive bonuses, which may be paid in cash or stock or a combination thereof.

##### Restricted Stock

The Company grants time-based restricted stock awards to executive officers and other senior employees generally vesting over a four-year period. In addition, certain key management members typically receive time-based restricted stock awards upon commencement of employment and may receive them annually in conjunction with the Company's performance review. Time-based restricted stock awards are granted at a price equal to fair value, which is determined based on the closing price of the Company's common stock on the grant date. The Company recognizes compensation expense for time-based restricted stock awards on a straight-line basis over the vesting period.

The Company also grants market-based restricted stock units to executive officers and other senior employees. The market-based units vest after three years depending upon the Company's total stockholder return over the three-year performance period relative to other companies in its selected peer group. The fair value of these market-based restricted stock units are determined by using extensive market data that is based on historical Company and peer group information. The Company recognizes compensation expense for market-based restricted stock units on a straight-line basis over the vesting period.

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

Restricted stock activity during the three months ended July 31, 2021 is summarized below:

	Shares		Weighted-Average Grant Date Fair Value
	(in thousands, except per share data)		
Non-vested, April 30, 2021	2,370	\$	34.34
Granted	465	\$	60.36
Vested	(740)	\$	45.07
Forfeited/expired	(14)	\$	29.44
Non-vested, July 31, 2021	2,081	\$	38.64

As of July 31, 2021, there were 0.4 million shares outstanding relating to market-based restricted stock units with total unrecognized compensation totaling \$2.4 million.

As of July 31, 2021, there was \$71.3 million of total unrecognized compensation cost related to all non-vested awards of restricted stock, which is expected to be recognized over a weighted-average period of 3.0 years. During the three months ended July 31, 2021 and 2020, 259,078 shares and 161,027 shares of restricted stock totaling \$17.6 million and \$4.4 million, respectively, were repurchased by the Company, at the option of employees, to pay for taxes related to the vesting of restricted stock.

#### Employee Stock Purchase Plan

The Company has an ESPP that, in accordance with Section 423 of the Internal Revenue Code, allows eligible employees to authorize payroll deductions of up to 5% of their salary to purchase shares of the Company's common stock. On June 3, 2020, the Company amended the plan so that the purchase price of the shares purchased could not be less than 85% or more than 100% of the fair market price of the common stock on the last day of the enrollment period. This amendment became effective July 1, 2020. Employees may not purchase more than \$25,000 in stock during any calendar year. The maximum number of shares that may be issued under the ESPP is 3.0 million shares. During the three months ended July 31, 2021 and 2020, employees purchased 55,025 shares at \$65.30 per share and 129,047 shares at \$26.12 per share, respectively. As of July 31, 2021, the ESPP had approximately 0.5 million shares remaining available for future issuance.

#### Common Stock

During the three months ended July 31, 2021, the Company repurchased (on the open market or through privately negotiated transactions) 37,696 shares of the Company's common stock for \$2.5 million. During the three months ended July 31, 2020, no shares were repurchased by the Company (on the open market or through privately negotiated transactions).

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

- (1) These investments are held in trust for settlement of the Company's vested obligations of \$171.2 million and \$157.3 million as of July 31, 2021 and April 30, 2021, respectively, under the ECAP (see Note 6 — Deferred Compensation and Retirement Plans). Unvested obligations under the deferred compensation plans totaled \$24.7 million and \$26.5 million as of July 31, 2021 and April 30, 2021, respectively. During the three months ended July 31, 2021 and 2020, the fair value of the investments increased; therefore, the Company recognized a gain of \$5.2 million and \$11.5 million, respectively, which was recorded in other income, net.

Investments in marketable securities classified as available-for-sale securities are made based on the Company's investment policy, which restricts the types of investments that can be made. As of July 31, 2021 and April 30, 2021, marketable securities classified as available-for-sale consisted of commercial paper, corporate notes/bonds, and US Treasury and Agency securities for which market prices for similar assets are readily available. Investments that have an original maturity of 90 days or less and are considered highly liquid investments are classified as cash equivalents. As of July 31, 2021, available-for-sale marketable securities had remaining maturities ranging from one to 22 months. During the three months ended July 31, 2021 and 2020 there were \$21.7 million and \$11.8 million in sales/maturities of available-for-sale marketable securities, respectively. Investments in marketable securities that are held in trust for settlement of the Company's vested obligations under the ECAP are equity securities and are based upon the investment selections the employee elects from a pre-determined set of securities in the ECAP and the Company invests in equity securities to mirror these elections. As of July 31, 2021 and April 30, 2021, the Company's investments in equity securities consisted of mutual funds for which market prices are readily available. Unrealized gains recorded for the period that relate to equity securities still held as of July 31, 2021 and 2020 were \$4.1 million and \$11.4 million, respectively.

#### Foreign Currency Forward Contracts Not Designated as Hedges

The fair value of derivatives not designated as hedge instruments are as follows:

	July 31, 2021	April 30, 2021
	(in thousands)	
Derivative assets:		
Foreign currency forward contracts	\$ 779	\$ 822
Derivative liabilities:		
Foreign currency forward contracts	\$ 982	\$ 834

As of July 31, 2021, the total notional amounts of the forward contracts purchased and sold were \$9.7 million and \$45.4 million, respectively. As of April 30, 2021, the total notional amounts of the forward contracts purchased and sold were \$69.4 million and \$44.9 million, respectively. The Company recognizes forward contracts as a net asset or net liability on the consolidated balance sheets as such contracts are covered by a master netting agreement. During the three months ended July 31, 2021 and 2020, the Company incurred gains of \$0.1 million and \$0.8 million, respectively, related to forward contracts, which was recorded in general and administrative expenses in the accompanying consolidated statements of operations. These foreign currency gains offset foreign currency losses that result from transactions denominated in a currency other than the Company's functional currency. The cash flows related to foreign currency forward contracts are included in cash flows from operating activities.

#### 6. Deferred Compensation and Retirement Plans

The Company has several deferred compensation and retirement plans for eligible consultants and vice presidents that provide defined benefits to participants based on the deferral of current compensation or contributions made by the Company subject to vesting and retirement or termination provisions. Among these plans is a defined benefit pension plan for certain employees in the U.S. The assets of this plan are held separately from the assets of the sponsor in self-administered funds. All other defined benefit obligations from other plans are unfunded.

The components of net periodic benefit costs are as follows:

	Three Months Ended July 31,	
	2021	2020
	(in thousands)	
Service cost	\$ 8,679	\$ 7,283
Interest cost	1,019	1,033
Amortization of actuarial loss	543	997
Expected return on plan assets (1)	(387)	(351)
Net periodic service credit amortization	(101)	(101)
Net periodic benefit costs (2)	\$ 9,753	\$ 8,861

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

- (1) The expected long-term rate of return on plan assets was 6.00% and 6.00% for July 31, 2021 and 2020, respectively.
- (2) The service cost, interest cost and the other components of net periodic benefit costs are included in compensation and benefits expense, interest expense, net and other income, net, respectively, on the consolidated statements of operations.

The Company purchased COLI contracts insuring the lives of certain employees eligible to participate in the deferred compensation and pension plans as a means of setting aside funds to cover such plans. The gross CSV of these contracts of \$243.2 million and \$241.3 million as of July 31, 2021 and April 30, 2021, respectively, was offset by outstanding policy loans of \$80.0 million and \$80.0 million in the accompanying consolidated balance sheets as of July 31, 2021 and April 30, 2021, respectively. The CSV value of the underlying COLI investments increased by \$0.5 million and \$2.1 million during the three months ended July 31, 2021 and 2020, respectively, and is recorded as a decrease in compensation and benefits expense in the accompanying consolidated statements of operations.

The Company's ECAP is intended to provide certain employees an opportunity to defer their salary and/or bonus on a pre-tax basis. In addition, the Company, as part of its compensation philosophy, makes discretionary contributions into the ECAP and such contributions may be granted to key employees annually based on the employee's performance. Certain key management may also receive Company ECAP contributions upon commencement of employment. The Company amortizes these contributions on a straight-line basis over the service period, generally a five year period. Participants have the ability to allocate their deferrals among a number of investment options and may receive their benefits at termination, retirement or 'in service' either in a lump sum or in quarterly installments over one-to-15 years. The ECAP amounts that are expected to be paid to employees over the next 12 months are classified as a current liability included in compensation and benefits payable on the accompanying consolidated balance sheets.

The ECAP is accounted for whereby the changes in the fair value of the vested amounts owed to the participants are adjusted with a corresponding charge (or credit) to compensation and benefits costs. During the three months ended July 31, 2021 and 2020, deferred compensation liability increased; therefore, the Company recognized compensation expense of \$5.4 million and \$11.2 million, respectively. Offsetting the increases in compensation and benefits expense was an increase in the fair value of marketable securities (held in trust to satisfy obligations of the ECAP liabilities) of \$5.2 million and \$11.5 million during the three months ended July 31, 2021 and 2020, respectively, recorded in other income, net on the consolidated statements of operations (see Note 5—*Financial Instruments*).

## 7. Fee Revenue

### Contract Balances

A contract asset (unbilled receivables) is recorded when the Company transfers control of products or services before there is an unconditional right to payment. A contract liability (deferred revenue) is recorded when cash is received in advance of performance of the obligation. Deferred revenue represents the future performance obligations to transfer control of products or services for which the Company has already received consideration. Deferred revenue is presented in other accrued liabilities on the consolidated balance sheets.

The following table outlines the Company's contract asset and liability balances as of July 31, 2021 and April 30, 2021:

	July 31, 2021	April 30, 2021
	(in thousands)	
Contract assets-unbilled receivables	\$ 103,192	\$ 82,842
Contract liabilities-deferred revenue	\$ 191,722	\$ 184,610

During the three months ended July 31, 2021, the Company recognized revenue of \$4.0 million that was included in the contract liabilities balance at the beginning of the period.

### Performance Obligations

The Company has elected to apply the practical expedient to exclude the value of unsatisfied performance obligations for contracts with a duration of one year or less, which applies to all executive search and professional search fee revenue. As of July 31, 2021, the aggregate transaction price allocated to the performance obligations that are unsatisfied for contracts with an expected duration of greater than one year at inception was \$804.2 million. Of the \$804.2 million of remaining performance obligations, the Company expects to recognize approximately \$367.6 million in the remainder of fiscal 2022, \$249.8 million in fiscal 2023, \$123.7 million in fiscal 2024 and the remaining \$63.1 million in fiscal 2025 and thereafter. However, this amount should not be considered an indication of the Company's future revenue as contracts with an initial term of one year or less are not included. Further, the Company's contract terms and conditions allow for clients to increase or decrease the scope of services and such changes do not increase or decrease a performance obligation until the Company has an enforceable right to payment.

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

#### Disaggregation of Revenue

The Company disaggregates its revenue by line of business and further by region for Executive Search. This information is presented in Note 11-Segments.

The following table provides further disaggregation of fee revenue by industry:

	Three Months Ended July 31,			
	2021		2020	
	Dollars	%	Dollars	%
	(dollars in thousands)			
Industrial	\$ 149,356	25.5 %	\$ 95,311	27.7 %
Life Sciences/Healthcare	115,190	19.7	65,450	19.0
Financial Services	105,649	18.0	65,727	19.1
Technology	94,934	16.2	49,324	14.4
Consumer Goods	81,564	13.9	44,778	13.0
Education/Non-Profit/General	38,702	6.7	23,507	6.8
Fee Revenue	<u>\$ 585,395</u>	<u>100.0 %</u>	<u>\$ 344,097</u>	<u>100.0 %</u>

#### 8. Credit Losses

The Company is exposed to credit losses primarily through the provision of its Executive Search, Consulting and Digital services. The Company's expected credit loss allowance methodology for accounts receivable is developed using historical collection experience, current and future economic and market conditions and a review of the current status of customers' trade accounts receivables. Due to the short-term nature of such receivables, the estimate of the amount of accounts receivable that may not be collected is primarily based on historical loss-rate experience. When required, the Company adjusts the loss-rate methodology to account for current conditions and reasonable and supportable expectations of future economic and market conditions. The Company generally assesses future economic conditions for a period of sixty to ninety days, which corresponds with the contractual life of its accounts receivables. Additionally, specific allowance amounts are established to record the appropriate provision for customers that have a higher probability of default. The Company's monitoring activities include timely account reconciliation, dispute resolution, payment confirmation, consideration of customers' financial condition and macroeconomic conditions. Balances are written off when determined to be uncollectible. The Company considered the current and expected future economic and market conditions surrounding the corona virus pandemic ("COVID-19") as of the end of the quarter and determined that the estimate of credit losses was not significantly impacted as of that date.

The activity in the allowance for credit losses on the Company's trade receivables is as follows:

	(in thousands)
<b>Balance at April 30, 2021</b>	\$ 29,324
Provision for credit losses	4,599
Write-offs	(2,121 )
Recoveries of amounts previously written off	382
Foreign currency translation	(145 )
<b>Balance at July 31, 2021</b>	<u>\$ 32,039</u>

The fair value and unrealized losses on available for sale debt securities, aggregated by investment category and the length of time the security has been in an unrealized loss position, are as follows:

	Less Than 12 Months		Balance Sheet Classification	
	Fair Value	Unrealized Loss	Marketable Securities, Current	Marketable Securities, Non-Current
	(in thousands)			
<b>Balance at July 31, 2021</b>				
Commercial paper	\$ 21,879	\$ 6	\$ 21,879	\$ —
Corporate notes/bonds	\$ 31,082	\$ 19	\$ 17,087	\$ 13,995

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

Balance at April 30, 2021	Less Than 12 Months		Balance Sheet Classification			
	Fair Value	Unrealized Loss (in thousands)	Cash and Cash Equivalent	Marketable Securities, Current	Marketable Securities, Non- Current	
Commercial paper	\$ 36,378	\$ 7	\$ 5,749	\$ 30,629	\$ —	
Corporate notes/bonds	\$ 26,350	\$ 20	\$ —	\$ 10,133	\$ 16,217	

The unrealized losses on 13 and 18 investments in Commercial paper securities and 19 and 15 investments in Corporate notes/bonds on July 31, 2021 and April 30, 2021, respectively, were caused by fluctuations in market interest rates. The Company only purchases high grade bonds that have a maturity from the date of purchase of no more than two years. The Company monitors the credit worthiness of its investments on a quarterly basis. The Company does not intend to sell the investments and does not believe it will be required to sell the investments before the investments mature and therefore recover the amortized cost basis.

#### 9. Income Taxes

The provision for income tax was an expense of \$23.9 million in the three months ended July 31, 2021, compared to a benefit of \$0.7 million in the three months ended July 31, 2020. This reflects a 23.8% and a 21.9% effective tax rate for the three months ended July 31, 2021 and 2020, respectively. Due to the negative business impact and uncertainties brought on by the COVID-19 outbreak in the three months ended July 31, 2020, the Company could not reliably estimate an annual effective tax rate based on projected income because small changes in the projected income produced significant variations in the estimated annual effective rate. As a result, the Company used an actual year-to-date effective tax rate as the best estimate of the annual effective tax rate for the three months ended July 31, 2020. In the second and third quarters of fiscal 2021, the Company saw business conditions improve, and the Company returned to the generally prescribed method of computing the tax provision for interim periods using an estimated annual effective tax rate based on projected income. The Company has continued with the use of an estimated annual effective tax rate based on projected income for the three months ended July 31, 2021. The variability in effective tax rate over time is primarily due to the impact of U.S. state income taxes and the jurisdictional mix of earnings.

#### 10. Restructuring Charges, Net

There were no restructuring charges in the three months ended July 31, 2021. On April 20, 2020, in light of the continuing uncertainty in worldwide economic conditions caused by COVID-19 and, as part of a broader program aimed at further enhancing Korn Ferry's strong balance sheet and liquidity position, the Company adopted a restructuring plan intended to adjust its cost base to the then-current economic environment and to position the Company to invest into its recovery. The Company continued the implementation of this plan in the first quarter of fiscal 2021 and this resulted in restructuring charges, net of \$27.5 million in the three months ended July 31, 2020 across all lines of business relating to severance for positions that were eliminated.

Changes in the restructuring liability during the three months ended July 31, 2021 were as follows:

	Restructuring Liability (in thousands)
As of April 30, 2021	\$ 6,985
Reductions for cash payments	(3,531)
Exchange rate fluctuations	(122)
As of July 31, 2021	<u>\$ 3,332</u>

As of July 31, 2021 and April 30, 2021, the restructuring liability is included in the current portion of other accrued liabilities on the consolidated balance sheets, except for \$0.6 million and \$0.6 million, respectively, which are included in other long-term liabilities.

#### 11. Segments

The Company has seven reportable segments: Consulting, Digital, Executive Search North America, Executive Search EMEA, Executive Search Asia Pacific, Executive Search Latin America and RPO & Professional Search. Revenues are directly attributed to a reportable segment and expenses not directly associated with a specific segment are allocated based on the most relevant measures applicable, including revenues, headcount and other factors.

The Company's seven reportable segments operate through the following four lines of business:

1. **Consulting** aligns organization structure, culture, performance and people to drive sustainable growth by addressing four fundamental needs: Organizational Strategy, Assessment and Succession, Leadership and Professional

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

Development and Total Rewards. This work is supported by a comprehensive range of some of the world's leading IP and data.

2. **Digital** leverages an artificial intelligence powered, machine-learning platform to identify structure, roles, capabilities and behaviors needed to drive business forward. This end-to-end system combines Korn Ferry proprietary data, client data, and external market data to generate insight and recommend action.
3. **Executive Search** helps organizations recruit board level, chief executive and other senior executive and general management talent. Behavioral interviewing and proprietary assessments are used to determine ideal organizational fit, and salary benchmarking builds appropriate frameworks for compensation and retention.
4. **RPO & Professional Search** combines people, process expertise and IP-enabled technology to deliver enterprise talent acquisition solutions to clients. Transaction sizes range from single professional searches to team, department and line of business projects, and global outsource recruiting solutions.

Executive Search is managed by geographic regional leaders. Worldwide operations for Consulting, Digital, and RPO & Professional Search are managed by their Chief Executive Officers. The Executive Search geographic regional leaders and the Chief Executive Officers of Consulting, Digital, and RPO & Professional Search report directly to the Chief Executive Officer of the Company. The Company also operates Corporate to record global expenses.

The Company evaluates performance and allocates resources based on the Company's chief operating decision maker ("CODM") review of 1) fee revenue and 2) adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA"). To the extent that such costs or charges occur, Adjusted EBITDA excludes restructuring charges, integration/acquisition costs, certain separation costs and certain non-cash charges (goodwill, intangible asset and other impairment charges). The CODM is not provided asset information by reportable segment.

Financial highlights by reportable segments are as follows:

	Three Months Ended July 31, 2021

## 12. Long-Term Debt

### 4.625% Senior Unsecured Notes due 2027

On December 16, 2019, the Company completed a private placement of 4.625% Senior Unsecured Notes due 2027 (the "Notes") with a \$400 million principal amount pursuant to Rule 144A and Regulation S under the Securities Act of 1933, as amended. The Notes were issued with a \$4.5 million discount and will mature December 15, 2027, with interest payable semi-annually in arrears on June 15 and December 15 of each year, commencing on June 15, 2020. The Notes represent senior unsecured obligations that rank equally in right of payment to all existing and future senior unsecured indebtedness. The Company may redeem the Notes prior to maturity, subject to certain limitations and premiums defined in the indenture governing the Notes. At any time prior to December 15, 2022, the Company may redeem the Notes at a redemption price equal to 100% of the principal plus the Applicable Premium (as defined in the indenture governing the Notes), and accrued and unpaid interest. At any time prior to December 15, 2022, the Company may use the proceeds of certain equity offerings to redeem up to 35% of the aggregate principal amount of the Notes, including any permitted additional notes, at a redemption price equal to 104.625% of the principal amount and accrued and unpaid interest. At any time and from time to time on or after December 15, 2022, the Company may redeem the Notes at the applicable redemption prices set forth in the table below, plus accrued and unpaid interest, if redeemed during the 12-month period beginning on December 15 of each of the years indicated:

Year	Percentage
2022	102.313%
2023	101.156%
2024 and thereafter	100.000%

The Notes allow the Company to pay \$25 million of dividends per fiscal year with no restrictions, plus an unlimited amount of dividends so long as the Company's consolidated total leverage ratio is not greater than 3.50 to 1.00, and the Company is not in default under the indenture governing the Notes. The Notes are guaranteed by each of the Company's existing and future wholly owned domestic subsidiaries to the extent such subsidiaries guarantee the Company's revolving credit facility. The indenture governing the Notes requires that, upon the occurrence of both a Change of Control and a Rating Decline (each as defined in the indenture), the Company shall make an offer to purchase all of the Notes at 101% of their principal amount, and accrued and unpaid interest. The Company used the proceeds from the offering of the Notes to repay \$76.9 million outstanding under the Company's prior revolving credit facility and to pay expenses and fees in connection therewith. The remainder of the proceeds were used for general corporate requirements. The effective interest rate on the Notes was 4.86% as of July 31, 2021. As of July 31, 2021 and April 30, 2021, the fair value of the Notes was \$415.5 million and \$416.5 million, respectively, based on borrowing rates then required of notes with similar terms, maturity and credit risk. The fair value of the Notes was classified as a Level 2 measurement in the fair value hierarchy.

# KORN FERRY AND SUBSIDIARIES

## NOTES TO CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

### July 31, 2021 (continued)

Long-term debt, at amortized cost, consisted of the following:

In thousands	July 31, 2021	April 30, 2021
Senior Unsecured Notes	\$ 400,000	\$ 400,000
Less: Unamortized discount and issuance costs	(5,038)	(5,206)
<b>Long-term borrowings, net of unamortized discount and debt issuance costs</b>	<b>\$ 394,962</b>	<b>\$ 394,794</b>

#### Credit Facility

On December 16, 2019, the Company entered into a Credit Agreement (the "Credit Agreement") with a syndicate of banks and Bank of America, National Association as administrative agent to among other things, provide for enhanced financial flexibility. The Credit Agreement provides for a \$650.0 million five-year senior secured revolving credit facility (the "Revolver"), and contains certain customary affirmative and negative covenants, including a maximum consolidated net leverage ratio, a maximum consolidated secured net leverage ratio and a minimum interest coverage ratio. The Credit Agreement permits the payment of dividends to stockholders and Company share repurchases so long as there is no default under the Credit Agreement, the total funded debt to adjusted EBITDA ratio (as set forth in the Credit Agreement, the "consolidated net leverage ratio"), is no greater than 4.00 to 1.00, and pro forma liquidity is at least \$50.0 million.

The principal balance of the Revolver, if any, is due on the date of its termination. The Revolver matures on December 16, 2024 and any unpaid principal balance is payable on this date. The Revolver may also be prepaid and terminated early by the Company at any time without premium or penalty (subject to customary LIBOR breakage fees).

At the Company's option, loans issued under the Credit Agreement will bear interest at either LIBOR or an alternate base rate, in each case plus the applicable interest rate margin. The interest rate applicable to loans outstanding under the Credit Agreement may fluctuate between LIBOR plus 1.125% per annum to LIBOR plus 2.00% per annum, in the case of LIBOR borrowings (or between the alternate base rate plus 0.125% per annum and the alternate base rate plus 1.00% per annum, in the alternative), based upon the Company's consolidated net leverage ratio at such time. In addition, the Company will be required to pay to the lenders a quarterly commitment fee ranging from 0.175% to 0.35% per annum on the average daily unused amount of the Revolver, based upon the Company's consolidated net leverage ratio at such time, and fees relating to the issuance of letters of credit.

As of July 31, 2021 and April 30, 2021, there was no outstanding liability under the Revolver. The unamortized debt issuance costs associated with the Credit Agreement was \$3.1 million and \$3.3 million as of July 31, 2021 and April 30, 2021, respectively. The debt issuance costs were included in other current assets and other non-current assets on the consolidated balance sheets. As of July 31, 2021, the Company was in compliance with its debt covenants.

The Company had a total of \$644.5 million and \$646 million available under the Revolver after \$5.5 million and \$4.0 million of standby letters of credit have been issued as of July 31, 2021 and April 30, 2021, respectively. The Company had a total of \$11.7 million and \$11.0 million of standby letters with other financial institutions as of July 31, 2021 and April 30, 2021, respectively. The standby letters of credit were generally issued as a result of entering into office premise leases.

#### 13. Leases

The Company's lease portfolio is comprised of operating leases for office space and equipment and finance leases for equipment. Equipment leases are comprised of vehicles and office equipment. The majority of the Company's leases include both lease and non-lease components. Non-lease components primarily include maintenance, insurance, taxes and other utilities. The Company combines fixed payments for non-lease components with its lease payments and accounts for them as a single lease component, which increases its ROU assets and lease liabilities. Some of the leases include one or more options to renew or terminate the lease at the Company's discretion. Generally, the renewal and termination options are not included in the ROU assets and lease liabilities as they are not reasonably certain of exercise. The Company has elected not to recognize a ROU asset or lease liability for leases with an initial term of 12 months or less.

As most of the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at the commencement date in determining the present value of the future minimum lease payments. The Company applies the portfolio approach when determining the incremental borrowing rate since it has a centrally managed treasury function. The Company's incremental borrowing rate is estimated to approximate the interest rate on a collateralized basis with similar terms and payments in a similar economic environment.

Operating leases contain both office and equipment leases and have remaining terms that range from less than one year to 11 years, some of which also include options to extend or terminate the lease. Finance leases are comprised of equipment leases and have remaining terms that range from less than one year to five years. Finance lease assets are included in property and equipment, net while finance lease liabilities are included in other accrued liabilities and other liabilities.

#### 14. Subsequent Event

##### *Quarterly Dividend Declaration*

On September 7, 2021, the Board of Directors of the Company declared a cash dividend of \$0.12 per share with a payment date of October 15, 2021 to holders of the Company's common stock of record at the close of business on September 23, 2021. The declaration and payment of future dividends under the quarterly dividend policy will be at the discretion of the Board of Directors and will depend upon many factors, including the Company's earnings, capital requirements, financial condition, the terms of the Company's indebtedness and other factors that the Board of Directors may deem to be relevant. The Board of Directors may amend, revoke or suspend the dividend policy at any time and for any reason.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Forward-Looking Statements

This Quarterly Report on Form 10-Q may contain certain statements that we believe are, or may be considered to be, "forward-looking" statements, within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These forward-looking statements generally can be identified by use of statements that include phrases such as "believe," "expect," "anticipate," "intend," "plan," "foresee," "may," "will," "likely," "estimates," "potential," "continue" or other similar words or phrases. Similarly, statements that describe our objectives, plans or goals, as well as the magnitude and duration of the impact of the global ("COVID-19") pandemic on our business, employees, customers and our ability to provide services in affected regions. These forward-looking statements are subject to risks and uncertainties that could cause our actual results to differ materially from those contemplated by the relevant forward-looking statement. The principal risk factors that could cause actual performance and future actions to differ materially from the forward-looking statements include, but are not limited to, those relating to the ultimate magnitude and duration of COVID-19 and of any future pandemics or similar outbreaks, and related restrictions and operational requirements that apply to our business and the businesses of our clients, and any related negative impacts on our business, employees, customers and our ability to provide services in affected regions, global and local political and or economic developments in or affecting countries where we have operations, competition, changes in demand for our services as a result of automation, dependence on and costs of attracting and retaining qualified and experienced consultants, maintaining our relationships with customers and suppliers and retaining key employees, maintaining our brand name and professional reputation, potential legal liability and regulatory developments, portability of client relationships, consolidation of or within the industries we serve, changes and developments in governmental laws and regulations, evolving investor and customer expectations with regard to environmental matters, currency fluctuations in our international operations, risks related to growth, alignment of our cost structure, restrictions imposed by off-limits agreements, reliance on information processing systems, cyber security vulnerabilities or events, changes to data security, data privacy, and data protection laws, dependence on third parties for the execution of critical functions, limited protection of our intellectual property ("IP"), our ability to enhance and develop new technology, our ability to successfully recover from a disaster or other business continuity problems, employment liability risk, an impairment in the carrying value of goodwill and other intangible assets, treaties, or regulations on our business and our Company, deferred tax assets that we may not be able to use, our ability to develop new products and services, the impact of the United Kingdom's withdrawal from the European Union, changes in our accounting estimates and assumptions, the utilization and billing rates of our consultants, seasonality, the expansion of social media platforms, the ability to effect acquisitions, our indebtedness, the phase-out of LIBOR, and the matters disclosed under the heading "Risk Factors" in the Company's Exchange Act reports, including Item 1A included in the Annual Report on Form 10-K for the fiscal year ended April 30, 2021 (the "Form 10-K"). Readers are urged to consider these factors carefully in evaluating the forward-looking statements. The forward-looking statements included in this Quarterly Report on Form 10-Q are made only as of the date of this Quarterly Report on Form 10-Q, and we undertake no obligation to publicly update these forward-looking statements to reflect subsequent events or circumstances.

The following presentation of management's discussion and analysis of our financial condition and results of operations should be read together with our consolidated financial statements and related notes included in this Quarterly Report on Form 10-Q. We also make available on the Investor Relations portion of our website earnings slides and other important information, which we encourage you to review.

### Executive Summary

Korn Ferry (referred to herein as the "Company" or in the first-person notations "we," "our" and "us") is a global organizational consulting firm. We help clients synchronize strategy, operations and talent to drive superior business performance. We work with organizations to design their structures, roles and responsibilities. We help them hire the right people to bring their strategy to life. And we advise them on how to reward, develop and motivate their people.

We are pursuing a strategy that will help Korn Ferry to focus on clients and collaborate intensively across the organization. This approach builds on the best of our past and gives us a clear path to the future with focused initiatives to increase our client and commercial impact. Korn Ferry is transforming how clients address their talent management needs. We have evolved from a mono-line business to a multi-faceted consultancy business, giving our consultants more frequent and expanded opportunities to engage with clients.

Our seven reportable segments operate through the following four lines of business:

1. **Consulting** aligns organization structure, culture, performance and people to drive sustainable growth by addressing four fundamental needs: Organizational Strategy, Assessment and Succession, Leadership and Professional Development, and Total Rewards. This work is supported by a comprehensive range of some of the world's leading IP and data.
2. **Digital** leverages an artificial intelligence ("AI") powered, machine-learning platform to identify the best structures, roles, capabilities and behaviors needed to drive business forward. The end-to-end system combines Korn Ferry proprietary data, client data, and external market data to generate insight and recommend action.
3. **Executive Search** helps organizations recruit board level, chief executive and other senior executive and general management talent. Behavioral interviewing and proprietary assessments are used to determine ideal organizational fit, and salary benchmarking builds appropriate frameworks for compensation and retention.
4. **RPO & Professional Search** combines people, process expertise and IP-enabled technology to deliver enterprise talent acquisition solutions to clients. Transaction sizes range from single professional searches to team, department and line of business projects, and global outsource recruiting solutions.

The Company has seven reportable segments: Consulting, Digital, Executive Search North America, Executive Search EMEA, Executive Search Asia Pacific, Executive Search Latin America and RPO & Professional Search.

- Approximately 75% of the executive searches we performed in fiscal 2021 were for board level, chief executive and other senior executive and general management positions. Our 3,635 search engagement clients in fiscal 2021 included many of the world's largest and most prestigious public and private companies.
- We have built strong client loyalty, with 90% of the assignments performed during fiscal 2021 having been on behalf of clients for whom we had conducted assignments in the previous three fiscal years.
- Approximately 70% of our revenues were generated from clients that have utilized multiple lines of our business.
- A vital pillar of our growth strategy is Digital. Our data and IP are embedded into the core business processes of our clients, helping us generate long-term relationships through large scale and technology-based talent programs.
- In fiscal 2021, Korn Ferry was recognized as one of the top RPO providers in the Baker's Dozen list, marking our 14th consecutive year on the list. We were also named leader on the Everest PEAK Matrix for four years running and achieved star performer status in 2021, with an improved leader position from 2020. Through decades of experience, we have enhanced our RPO solution to deliver quality candidates that drive our clients' business strategies. We leverage proprietary IP and data sets to guide clients on the critical skills and competencies to look for, compensation information to align with market demand, and assessment tools to ensure candidate fit. In fiscal 2021, we introduced Nimble, a new, fully integrated recruitment technology solution incorporating Candidate Relationship Management, AI Assistance & Screening and Korn Ferry Assessments.

#### *The Impact of COVID-19*

In March 2020, COVID-19 was reported to have spread to over 100 countries, territories or areas, worldwide, and in the fourth quarter of fiscal 2020 the World Health Organization declared it a pandemic. The negative business impact from the pandemic was felt throughout all the geographical areas in which we do business during the first quarter of fiscal 2021. Governments and companies implemented social distancing - limiting either travel or in person individual or group face-to-face interaction as well as working from home to adhere to stay at home orders from national, state and city governments. Such restrictions initially impacted our ability to provide our products and services to our clients with such impact lessening in the second, third and fourth quarters of fiscal 2021 as the world learned to work in different ways. Starting in the fourth quarter of fiscal 2020 and continuing in the first quarter of fiscal 2021, the outbreak restricted the level of economic activity in the areas in which we operate and had an adverse impact on demand for and sales of our products and services. As a result of this, we initiated a plan in April 2020 that was intended to adjust our cost base to the economic environment at that time and to position us to invest in the recovery. This plan resulted in restructuring charges of \$27.5 million associated with severance during three months ended July 31, 2020. During the last three quarters, the Company has seen business conditions improve substantially from where they were in the second and first quarters of fiscal 2021.

While advances have been made in the science and societal and economic consequences of COVID-19, there remains significant uncertainty about the future impacts of COVID-19. On the positive side, governments around the world have begun distributing and administering the vaccine. In addition, the world has adopted new ways of working and interacting with

substantial acceptance of business being conducted in a virtual world. On the negative side there is a new more contagious variant of the virus that is infecting areas around the world, including portions of the United States and individuals that have been vaccinated. Knowledge is evolving as to the effectiveness of the vaccine against this and other mutations of the virus. There also have been challenges in manufacturing the vaccines at scale as well as distributing and administering them to the population at large in many countries around the world, including those where we operate. Therefore, it is unknown whether and for how long restrictions may need to be re-implemented in those or other jurisdictions. With the improvement in business activity we experienced in the last three quarters, we believe our costs are in line with our current revenue levels. However, uncertainties such as the impact that the new contagious variant of the virus may have in regions around the world how long the vaccine is effective and whether new restrictions are imposed (or prior restrictions re-imposed), make us unable to give assurance that the rate of increase in fee revenue during the three months ended July 31, 2021, will continue in the three months ended October 31, 2021 and beyond. Given the amount available from our current revolver and the amount of cash and cash equivalents and marketable securities net of amounts held in trust for deferred compensation and accrued bonuses, we believe that we have sufficient liquidity to meet our anticipated working capital, capital expenditures, general corporate requirements, debt obligation repayments and dividend payments under our dividend policy in the next 12 months.

#### *Performance Highlights*

The Company evaluates performance and allocates resources based on the chief operating decision maker's review of (1) fee revenue and (2) adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA"). To the extent that such charges occur, Adjusted EBITDA excludes restructuring charges, integration/acquisition costs, certain separation costs and certain non-cash charges (goodwill, intangible asset and other than temporary impairments of investments). For the three months ended July 31, 2020, Adjusted EBITDA excluded \$27.5 million of restructuring charges and \$0.7 million of integration/acquisition costs. For the three months ended July 31, 2021, there were no restructuring charges and no integration/acquisition costs.

Consolidated and the subtotals of Executive Search Adjusted EBITDA and Adjusted EBITDA margin are non-GAAP financial measures and have limitations as analytical tools. They should not be viewed as a substitute for financial information determined in accordance with United States ("U.S.") generally accepted accounting principles ("GAAP") and should not be considered in isolation or as a substitute for analysis of the Company's results as reported under GAAP. In addition, they may not necessarily be comparable to non-GAAP performance measures that may be presented by other companies.

Management believes the presentation of these non-GAAP financial measures provides meaningful supplemental information regarding Korn Ferry's performance by excluding certain charges, items of income and other items that may not be indicative of Korn Ferry's ongoing operating results. The use of these non-GAAP financial measures facilitates comparisons to Korn Ferry's historical performance and the identification of operating trends that may otherwise be distorted by the factors discussed above. Korn Ferry includes these non-GAAP financial measures because management believes it is useful to investors in allowing for greater transparency with respect to supplemental information used by management in its evaluation of Korn Ferry's ongoing operations and financial and operational decision-making. The accounting policies for the reportable segments are the same as those described in the summary of significant accounting policies in the accompanying consolidated financial statements, except that the above noted items are excluded to arrive at Adjusted EBITDA. Management further believes that Adjusted EBITDA is useful to investors because it is frequently used by investors and other interested parties to measure operating performance among companies with different capital structures, effective tax rates and tax attributes and capitalized asset values, all of which can vary substantially from company to company.

Fee revenue was \$585.4 million during the three months ended July 31, 2021, an increase of \$241.3 million, or 70%, compared to \$344.1 million in the three months ended July 31, 2020, with increases in fee revenue across all lines of business due to the Company's recovery from COVID-19, which adversely impacted the Company on a worldwide basis in the year-ago quarter. Exchange rates favorably impacted fee revenue by \$14.0 million, or 4%, in the three months ended July 31, 2021 compared to the year-ago quarter. Net income attributable to Korn Ferry in the three months ended July 31, 2021 was \$74.8 million, an increase of \$105.6 million as compared to net loss attributable to Korn Ferry of \$30.8 million in the year-ago quarter. Adjusted EBITDA in the three months ended July 31, 2021 was \$121.3 million, an increase of \$110.7 million as compared to \$10.6 million in the year-ago quarter. During the three months ended July 31, 2021, the Executive Search, RPO & Professional Search, Consulting, and Digital lines of business contributed \$61.6 million, \$34.0 million, \$26.8 million and \$25.6 million, respectively, to Adjusted EBITDA, which was offset by Corporate expenses net of other income of \$26.7 million.

Our cash, cash equivalents and marketable securities decreased by \$192.8 million to \$904.3 million at July 31, 2021, compared to \$1,097.1 million at April 30, 2021. This decrease was mainly due to annual bonuses earned in fiscal 2021 and paid during the first quarter of fiscal 2022, retention payments, capital expenditures, the semi-annual interest payment on the 4.625% Senior Unsecured Notes due 2027 (the "Notes") and dividends paid to stockholders during the three months ended July 31, 2021. As of July 31, 2021, we held marketable securities to settle obligations under our Executive Capital Accumulation Plan ("ECAP") with a cost value of \$147.2 million and a fair value of \$181.1 million. Our vested obligations for

which these assets were held in trust totaled \$171.2 million as of July 31, 2021 and our unvested obligations totaled \$24.7 million.

Our working capital increased by \$46.3 million to \$783.4 million as of July 31, 2021, as compared to \$737.1 million at April 30, 2021. We believe that cash on hand and funds from operations and other forms of liquidity will be sufficient to meet our anticipated working capital, capital expenditures, general corporate requirements, repayment of debt obligations and dividend payments under our dividend policy in the next 12 months. We had \$644.5 million and \$646.0 million available for borrowing under our Revolver (as defined herein) at July 31, 2021 and April 30, 2021. As of July 31, 2021 and April 30, 2021, there were \$5.5 million and \$4.0 million of standby letters of credit issued under our long-term debt arrangements. We had a total of \$11.7 million and \$11.0 million of standby letters of credit with other financial institutions as of July 31, 2021 and April 30, 2021, respectively.

### Results of Operations

The following table summarizes the results of our operations as a percentage of fee revenue:  
(Numbers may not total exactly due to rounding)

	Three Months Ended July 31,	
	2021	2020

### Three Months Ended July 31, 2021 Compared to Three Months Ended July 31, 2020

#### Fee Revenue

**Fee Revenue.** Fee revenue increased by \$241.3 million, or 70%, to \$585.4 million in the three months ended July 31, 2021 compared to \$344.1 million in the year-ago quarter. Exchange rates favorably impacted fee revenue by \$14.0 million, or 4%, in the three months ended July 31, 2021 compared to the year-ago quarter. The higher fee revenue was attributable to increases in all lines of business primarily due to the increasing relevance of the Company's solutions in helping businesses solve their organizational and human capital issues in today's business environment, as well as the Company's recovery from COVID-19, which adversely impacted the Company on a worldwide basis in the year-ago quarter.

**Consulting.** Consulting reported fee revenue of \$148.5 million, an increase of \$49.2 million, or 50%, in the three months ended July 31, 2021 compared to \$99.3 million in the year-ago quarter. The increase in fee revenue was due to the diversity and increasing relevance of our consulting services across all solutions and our ability to adapt to delivering the services in a virtual world as well as the Company's recovery from the economic impact of COVID-19, which negatively impacted the Company on a worldwide basis in the year-ago quarter. Exchange rates favorably impacted fee revenue by \$3.7 million, or 4%, in the three months ended July 31, 2021 compared to the year-ago quarter.

**Digital.** Digital reported fee revenue of \$80.7 million, an increase of \$24.7 million, or 44%, in the three months ended July 31, 2021 compared to \$56.0 million in the year-ago quarter. The increase in fee revenue was primarily due to the Company

recovering from COVID-19, which negatively impacted demand for the Company's product and services on a worldwide basis in the year-ago quarter. As economies around the world recover and companies pivot from in person training to virtual delivery of training courses, the demand for our products and services across all solutions continued to recover in the three months ended July 31, 2021. Exchange rates favorably impacted fee revenue by \$2.2 million, or 4% in the three months ended July 31, 2021 compared to the year-ago quarter.

**Executive Search North America.** Executive Search North America reported fee revenue of \$138.7 million, an increase of \$69.4 million, or 100%, in the three months ended July 31, 2021 compared to \$69.3 million in the year-ago quarter. North America's fee revenue was higher due to an 82% increase in the number of engagements billed and a 9% increase in the weighted-average fee billed per engagement (calculated using local currency) during the three months ended July 31, 2021 compared to the year-ago quarter.

**Executive Search EMEA.** Executive Search EMEA reported fee revenue of \$42.7 million, an increase of \$12.6 million, or 42% in the three months ended July 31, 2021 compared to \$30.1 million in the year-ago quarter. Exchange rates favorably impacted fee revenue by \$2.5 million, or 8%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase in fee revenue was due to a 24% increase in the number of engagements billed and a 6% increase in the weighted-average fee billed per engagement (calculated using local currency) during the three months ended July 31, 2021 compared to the year-ago quarter. Performance in the United Kingdom, United Arab Emirates, and France were the primary contributors to the increase in fee revenue in the three months ended July 31, 2021 compared to the year-ago quarter.

**Executive Search Asia Pacific.** Executive Search Asia Pacific reported fee revenue of \$28.7 million, an increase of \$11.4 million, or 66%, in the three months ended July 31, 2021 compared to \$17.3 million in the year-ago quarter. Exchange rates favorably impacted fee revenue by \$1.2 million, or 7%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase in fee revenue was due to a 55% increase in the number of engagements billed and a 1% increase in the weighted-average fees billed per engagement (calculated using local currency) during the three months ended July 31, 2021 compared to the year-ago quarter. The performance in India, Australia and China were the primary contributors to the increase in fee revenue in the three months ended July 31, 2021 compared to the year-ago quarter.

**Executive Search Latin America.** Executive Search Latin America reported fee revenue of \$6.8 million, an increase of \$3.3 million, or 94%, in the three months ended July 31, 2021 compared to \$3.5 million in the year-ago quarter. Exchange rates favorably impacted fee revenue by \$0.2 million, or 6%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase in fee revenue was due to a 67% increase in the number of engagements billed and a 9% increase in the weighted-average fees billed per engagement (calculated using local currency) during the three months ended July 31, 2021 compared to the year-ago quarter. The increase in fee revenue was due to higher fee revenue in Brazil, Mexico and Colombia in the three months ended July 31, 2021 compared to the year-ago quarter.

**RPO & Professional Search.** RPO & Professional Search reported fee revenue of \$139.3 million, an increase of \$70.6 million, or 103% in the three months ended July 31, 2021 compared to \$68.7 million in the year-ago quarter. Exchange rates favorably impacted fee revenue by \$3.3 million, or 5%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase in fee revenue was due to higher fee revenue in RPO of \$43.1 million and Professional Search of \$27.6 million due to wider adoption of RPO services in the market and the Company's recovery from the economic impact of COVID-19, which negatively impacted the Company on a worldwide basis in the year-ago quarter.

#### **Compensation and Benefits**

Compensation and benefits expense increased by \$112.2 million, or 40%, to \$396.2 million in the three months ended July 31, 2021 from \$284.0 million in the year-ago quarter. Exchange rates unfavorably impacted compensation and benefits by \$9.1 million, or 3%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase in compensation and benefits expense was due to increases in salaries and related payroll taxes, performance related bonus expense, amortization of long-term incentive awards and the use of outside contractors due to the Company's revenue growth through the recovery from the initial impact of COVID-19, combined with an increase in average headcount of 6% in the three months ended July 31, 2021 compared to the year-ago quarter. Compensation and benefits expense, as a percentage of fee revenue, decreased to 68% in the three months ended July 31, 2021 from 83% in the year-ago quarter.

Consulting compensation and benefits expense increased by \$25.3 million, or 33%, to \$102.2 million in the three months ended July 31, 2021 from \$76.9 million in the year-ago quarter. Exchange rates unfavorably impacted compensation and benefits by \$2.5 million, or 3%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase in compensation and benefits expense was primarily due to increases in salaries and related payroll taxes and performance-related bonus expense due to the segment's revenue growth through the recovery from the initial impacts of COVID-19, combined with an increase in overall profitability and headcount in the three months ended July 31, 2021 compared to the year-ago quarter. Consulting compensation and benefits expense, as a percentage of fee revenue, decreased to 69% in the three months ended July 31, 2021 from 77% in the year-ago quarter.

Digital compensation and benefits expense increased by \$4.9 million, or 14%, to \$40.8 million in the three months ended July 31, 2021 from \$35.9 million in the year-ago quarter. Exchange rates unfavorably impacted compensation and benefits by \$1.3 million, or 4%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase in compensation and benefits expense was due to increases in commission expense and salaries and related payroll taxes in the three months ended July 31, 2021 compared to the year-ago quarter as a result of the segment's revenue growth through the recovery from the initial impacts of COVID-19. Digital compensation and benefits expense, as a percentage of fee revenue, decreased to 51% in the three months ended July 31, 2021 from 64% in the year-ago quarter.

Executive Search North America compensation and benefits expense increased by \$26.0 million, or 40%, to \$91.5 million in the three months ended July 31, 2021 compared to \$65.5 million in the year-ago quarter. Exchange rates unfavorably impacted compensation and benefits by \$0.4 million, or 1%, in the three months ended July 31, 2021 compared to the year-ago quarter. The change was due to increases in performance-related bonus expense and salaries and related payroll taxes as a result of the segment's revenue growth through the recovery from the initial impacts of COVID-19, combined with an increase in overall profitability and headcount in the three months ended July 31, 2021 compared to the year-ago quarter. Executive Search North America compensation and benefits expense, as a percentage of fee revenue, decreased to 66% in the three months ended July 31, 2021 from 95% in the year-ago quarter.

Executive Search EMEA compensation and benefits expense increased by \$6.3 million, or 26%, to \$30.9 million in the three months ended July 31, 2021 compared to \$24.6 million in the year-ago quarter. Exchange rates unfavorably impacted compensation and benefits by \$1.9 million, or 8%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase was due to higher salaries and related payroll taxes in the three months ended July 31, 2021 compared to the year-ago quarter as a result of the segment's revenue growth through the recovery from the initial impacts of COVID-19, combined with an increase in overall profitability and headcount. Executive Search EMEA compensation and benefits expense, as a percentage of fee revenue, decreased to 72% in the three months ended July 31, 2021 from 82% in the year-ago quarter.

Executive Search Asia Pacific compensation and benefits expense increased by \$4.3 million, or 31%, to \$18.0 million in the three months ended July 31, 2021 compared to \$13.7 million in the year-ago quarter. Exchange rates unfavorably impacted compensation and benefits by \$0.7 million, or 5%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase was due to increases in performance-related bonus expense and salaries and related payroll taxes in the three months ended July 31, 2021 compared to the year-ago quarter as a result of the segment's revenue growth through the recovery from the initial impacts of COVID-19, combined with an increase in overall profitability and headcount. Executive Search Asia Pacific compensation and benefits expense, as a percentage of fee revenue, decreased to 63% in the three months ended July 31, 2021 from 80% in the year-ago quarter.

Executive Search Latin America compensation and benefits expense increased by \$1.8 million, or 56%, to \$5.0 million in the three months ended July 31, 2021 compared to \$3.2 million in the year-ago quarter. Exchange rates unfavorably impacted compensation and benefits by \$0.2 million, or 6%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase was due to higher performance-related bonus expense in the three months ended July 31, 2021 compared to the year-ago quarter as a result of the segment's revenue growth through the recovery from the initial impacts of COVID-19. Executive Search Latin America compensation and benefits expense, as a percentage of fee revenue, decreased to 74% in the three months ended July 31, 2021 from 92% in the year-ago quarter.

RPO & Professional Search compensation and benefits expense increased by \$38.4 million, or 70%, to \$93.1 million in the three months ended July 31, 2021 from \$54.7 million in the year-ago quarter. Exchange rates unfavorably impacted compensation and benefits by \$2.1 million, or 4%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase was due to higher performance-related bonus expense, higher salaries and related payroll taxes due to a 23% increase in the average headcount in the three months ended July 31, 2021 compared to the year-ago quarter and an increase in the use of outside contractors. These increases were all as a result of the segment's revenue growth through the recovery from the initial impacts of COVID-19, combined with an increase in overall profitability. RPO & Professional Search compensation and benefits expense, as a percentage of fee revenue, decreased to 67% in the three months ended July 31, 2021 from 80% in the year-ago quarter.

Corporate compensation and benefits expense increased by \$5.3 million, or 56%, to \$14.8 million in the three months ended July 31, 2021 from \$9.5 million in the year-ago quarter. The increase was due to higher performance-related bonus expense and higher salaries and related payroll taxes due to a 14% increase in the average headcount in the three months ended July 31, 2021 compared to the year-ago quarter. These increases were all as a result of the Company's revenue growth through the recovery from the initial impacts of COVID-19, combined with an increase in overall profitability on a consolidated basis.

### **General and Administrative Expenses**

General and administrative expenses increased by \$3.2 million, or 7%, to \$50.3 million in the three months ended July 31, 2021 from \$47.1 million in the year-ago quarter. Exchange rates unfavorably impacted general and administrative expenses by \$1.6 million, or 3%, in the three months ended July 31, 2021 compared to the year-ago quarter. The increase in general and administrative expenses was due to higher marketing and business development expenses and premise and office expenses. General and administrative expenses, as a percentage of fee revenue, were 9% in the three months ended July 31, 2021 compared to 14% in the year-ago quarter.

Consulting general and administrative expenses were \$12.0 million in the three months ended July 31, 2021 compared to \$11.8 million in the year-ago quarter, essentially flat. Consulting general and administrative expenses, as a percentage of fee revenue, decreased to 8% in the three months ended July 31, 2021 from 12% in the year-ago quarter.

Digital general and administrative expenses were \$7.1 million in the three months ended July 31, 2021 compared to \$7.3 million in the year-ago quarter, essentially flat. Digital general and administrative expenses, as a percentage of fee revenue, decreased to 9% in the three months ended July 31, 2021 from 13% in the year-ago quarter.

Executive Search North America general and administrative expenses were \$6.7 million in the three months ended July 31, 2021 compared to \$6.8 million in the year-ago quarter, essentially flat. Executive Search North America general and administrative expenses, as a percentage of fee revenue, decreased to 5% in the three months ended July 31, 2021 from 10% in the year-ago quarter.

Executive Search EMEA general and administrative expenses increased by \$0.6 million, or 16%, to \$4.3 million in the three months ended July 31, 2021 from \$3.7 million in the year-ago quarter. The increase in general and administrative expenses was due to the impact of foreign currency with foreign exchange losses in the three months ended July 31, 2021 compared to foreign currency gains in the year-ago quarter. Executive Search EMEA general and administrative expenses, as a percentage of fee revenue, decreased to 10% in the three months ended July 31, 2021 from 12% in the year-ago quarter.

Executive Search Asia Pacific general and administrative expenses increased by \$0.5 million, or 24%, to \$2.6 million in the three months ended July 31, 2021 from \$2.1 million in the year-ago quarter. The increase was due to higher bad debt expense in the three months ended July 31, 2021 compared to the year-ago quarter. Executive Search Asia Pacific general and administrative expenses, as a percentage of fee revenue decreased to 9% in the three months ended July 31, 2021 from 12% in the year-ago quarter.

Executive Search Latin America recognized a reduction in general and administrative expenses of \$2.4 million in the three months ended July 31, 2021 compared to the year-ago quarter. The decrease in general and administrative expenses was due to a decrease in premise and office expenses and the impact of foreign currency with foreign exchange gains recognized in the three months ended July 31, 2021 compared to foreign currency losses in the year-ago quarter.

RPO & Professional Search general and administrative expenses increased by \$1.2 million, or 21%, to \$6.9 million in the three months ended July 31, 2021 compared to \$5.7 million in the year-ago quarter. The increase in general and administrative expenses was primarily due to higher bad debt expense and an increase in premise and office expenses. RPO & Professional Search general and administrative expenses, as a percentage of fee revenue, decreased to 5% in the three months ended July 31, 2021 from 8% in the year-ago quarter.

Corporate general and administrative expenses increased by \$3.3 million, or 38%, to \$12.1 million in the three months ended July 31, 2021 compared to \$8.8 million in the year-ago quarter. The increase was primarily due to higher marketing and business development expenses and an increase in legal and professional fees during the three months ended July 31, 2021 compared to the year-ago quarter.

### **Cost of Services Expense**

Cost of services expense consists primarily of contractor and product costs related to the delivery of various services and products, primarily in RPO & Professional Search, Consulting and Digital. Cost of services expense increased by \$7.7 million, or 54%, to \$22.0 million in the three months ended July 31, 2021 compared to \$14.3 million in the year-ago quarter. The increase was due to the increase in fee revenue. Cost of services expense, as a percentage of fee revenue, was 4% in both the three months ended July 31, 2021 and 2020.

### **Depreciation and Amortization Expenses**

Depreciation and amortization expenses were \$15.6 million, an increase of \$0.6 million, or 4%, in the three months ended July 31, 2021 compared to \$15.0 million in the year-ago quarter. The increase was primarily due to the technology investments made in the current and prior year in software in our Digital business.

### **Restructuring Charges, Net**

In April 2020, we implemented a restructuring plan in response to the uncertainty caused by COVID-19 that resulted in reductions in our workforce in the fourth quarter of fiscal 2020. As part of this plan, we continued to reduce our workforce during the first quarter of fiscal 2021 and recorded restructuring charges, net of \$27.5 million of severance costs during the year-ago quarter. There were no restructuring charges, net during the three months ended July 31, 2021.

### **Net Income (Loss) Attributable to Korn Ferry**

Net income attributable to Korn Ferry increased by \$105.6 million, or 343%, to \$74.8 million in the three months ended July 31, 2021, as compared to a net loss attributable to Korn Ferry of \$30.8 million in the year-ago quarter. The increase in net income attributable to Korn Ferry was driven by the increase in fee revenue, which was driven by the factors discussed above. The increase in fee revenue was partially offset by increases in compensation and benefits expense and cost of services expense associated with the higher levels of business demand and an increase in income tax provision that resulted in net income attributable to Korn Ferry in the three months ended July 31, 2021. Net income (loss) attributable to Korn Ferry, as a percentage of fee revenue, was 13% and (9%) in the three months ended July 31, 2021 and 2020, respectively.

### **Adjusted EBITDA**

Adjusted EBITDA increased by \$110.7 million, or 1044%, to \$121.3 million in the three months ended July 31, 2021 as compared to \$10.6 million in the year-ago quarter. The increase in Adjusted EBITDA was driven by an increase in fee revenue, partially offset by increases in compensation and benefits expense (excluding integration/acquisition costs), cost of services expense, and general and administrative expenses (excluding integration/acquisition costs). Adjusted EBITDA, as a percentage of fee revenue, was 21% in the three months ended July 31, 2021 compared to 3% in the year-ago quarter.

Consulting Adjusted EBITDA was \$26.8 million in the three months ended July 31, 2021, an increase of \$20.2 million, or 306%, as compared to \$6.6 million in the year-ago quarter. This increase in Adjusted EBITDA was driven by higher fee revenue in the segment, as well as cost savings realized from work being conducted virtually. These changes were partially offset by increases in compensation and benefits expense and cost of services expense. Consulting Adjusted EBITDA, as a percentage of fee revenue, was 18% and 7% in the three months ended July 31, 2021 and 2020, respectively.

Digital Adjusted EBITDA was \$25.6 million in the three months ended July 31, 2021, an increase of \$17.7 million, or 224%, as compared to \$7.9 million in the year-ago quarter. This increase in Adjusted EBITDA was mainly driven by an increase in fee revenue in the segment, as well as cost savings realized from work being conducted virtually. These changes were partially offset by increases in compensation and benefits expense (excluding integration/acquisition costs) and cost of services expense during the three months ended July 31, 2021 compared to the year-ago quarter. Digital Adjusted EBITDA, as a percentage of fee revenue, was 32% and 14% in the three months ended July 31, 2021 and 2020, respectively.

Executive Search North America Adjusted EBITDA increased by \$38.0 million, or 717%, to \$43.3 million in the three months ended July 31, 2021 compared to \$5.3 million in the year-ago quarter. The increase was driven by higher fee revenue in the segment, partially offset by an increase in compensation and benefits expense. Executive Search North America Adjusted EBITDA, as a percentage of fee revenue, was 31% and 8% in the three months ended July 31, 2021 and 2020, respectively.

Executive Search EMEA Adjusted EBITDA increased by \$5.9 million, or 347%, to \$7.6 million in the three months ended July 31, 2021 compared to \$1.7 million in the year-ago quarter. The increase in Adjusted EBITDA was driven by higher fee revenue in the segment, partially offset by increases in compensation and benefits expense and general and administrative expenses. Executive Search EMEA Adjusted EBITDA, as a percentage of fee revenue, was 18% and 6% in the three months ended July 31, 2021 and 2020, respectively.

Executive Search Asia Pacific Adjusted EBITDA increased by \$6.7 million, or 419%, to \$8.3 million in the three months ended July 31, 2021 compared to \$1.6 million in the year-ago quarter. The increase in Adjusted EBITDA was driven by higher fee revenue in the segment, partially offset by increases in compensation and benefits expense and general and administrative expenses. Executive Search Asia Pacific Adjusted EBITDA, as a percentage of fee revenue, was 29% and 9% in the three months ended July 31, 2021 and 2020, respectively.

Executive Search Latin America Adjusted EBITDA increased by \$3.0 million to \$2.4 million in the three months ended July 31, 2021 compared to \$(0.6) million in the year-ago quarter. The increase in Adjusted EBITDA was driven by higher fee revenue in the segment and a decrease in general and administrative expenses, partially offset by an increase compensation and benefits expense. Executive Search Latin America Adjusted EBITDA, as a percentage of fee revenue, was 35% and (16%) in the three months ended July 31, 2021 and 2020, respectively.

RPO & Professional Search Adjusted EBITDA was \$34.0 million in the three months ended July 31, 2021, an increase of \$28.0 million, or 467%, as compared to \$6.0 million in the year-ago quarter. The increase in Adjusted EBITDA was mainly driven by higher fee revenue in the segment, partially offset by increases in compensation and benefits expense, cost of

services expense, and general and administrative expenses. RPO & Professional Search Adjusted EBITDA, as a percentage of fee revenue, was 24% and 9% in the three months ended July 31, 2021 and 2020, respectively.

#### ***Other Income, Net***

Other income, net was \$4.4 million in the three months ended July 31, 2021 compared to \$11.2 million in the year-ago quarter. The difference was primarily due to smaller gains from the fair value of our marketable securities during the three months ended July 31, 2021 compared to the year-ago quarter.

#### ***Interest Expense, Net***

Interest expense, net primarily relates to the Notes issued in December 2019 and borrowings under company-owned life insurance ("COLI") policies, which are partially offset by interest earned on cash and cash equivalent balances. Interest expense, net was \$5.4 million in the three months ended July 31, 2021 compared to \$6.9 million in the year-ago quarter. Interest expense, net decreased due to interest income earned as a result of death benefits received from our COLI policies in three months ended July 31, 2021.

#### ***Income Tax Provision (Benefit)***

The provision for income tax was \$23.9 million in the three months ended July 31, 2021 compared to a benefit of \$8.7 million in the year-ago quarter. This reflects a 23.8% and 21.9% effective tax rate for the three months ended July 31, 2021 and 2020, respectively. The variability in effective tax rate is primarily due to the impact of U.S. state income taxes and the jurisdictional mix of earnings.

#### ***Net Income (loss) Attributable to Noncontrolling Interest***

Net income (loss) attributable to noncontrolling interest represents the portion of a subsidiary's net earnings that are attributable to shares of such subsidiary not held by Korn Ferry that are included in the consolidated results of operations. Net income attributable to noncontrolling interest for the three months ended July 31, 2021 was \$1.6 million, as compared to break-even in the three months ended July 31, 2020.

#### ***Liquidity and Capital Resources***

The Company and its Board of Directors endorse a balanced approach to capital allocation. The Company's long-term priority is to invest in growth initiatives, such as the hiring of consultants, the continued development of IP and derivative products and services and the investment in synergistic, accretive merger and acquisition transactions that earn a return that is superior to the Company's cost of capital. Next, the Company's capital allocation approach contemplates the return of a portion of excess capital to stockholders, in the form of a regular quarterly dividend, subject to the factors discussed below and in the "Risk Factors" section of the Form 10-K. Additionally, the Company considers share repurchases on an opportunistic basis and subject to the terms of our Credit Agreement (defined below), as well as using excess cash to repay the Notes.

As previously discussed under the heading "Impact of COVID-19", with the implementation of the restructuring plan that was initiated on April 20, 2020 to reduce, in part, our human capital expenditures, and the improved business activity we experienced in the first quarter of fiscal 2022 demonstrated by an increase in fee revenue compared to the first quarter of fiscal 2021, we believe our costs are in line with our current revenue levels, but given the unpredictable and fluid nature of the pandemic and its economic consequences, our revenue levels may change. Given the amount available from our Revolver (defined below) and the amount of cash and cash equivalents and marketable securities, net of amounts held in trust for deferred compensations and accrued bonuses, we believe that we have sufficient liquidity to meet our anticipated working capital, capital expenditures, general corporate requirements, debt obligation payments and dividend payments under our dividend policy in the next 12 months.

On December 16, 2019, we completed a private placement of the Notes with a \$400 million principal amount pursuant to Rule 144A and Regulation S under the Securities Act of 1933, as amended. The Notes were issued with a \$4.5 million discount and will mature December 15, 2027, with interest payable semi-annually in arrears on June 15 and December 15 of each year, that commenced on June 15, 2020. The Notes represent senior unsecured obligations that rank equally in right of payment to all existing and future senior unsecured indebtedness. We may redeem the Notes prior to maturity, subject to certain limitations and premiums defined in the indenture governing the Notes. The Notes are guaranteed by each of our existing and future wholly owned domestic subsidiaries to the extent such subsidiaries guarantee our revolving credit facility under the Credit Agreement (defined below). The indenture governing the Notes requires that, upon the occurrence of both a Change of Control and a Rating Decline (each as defined in the indenture), we shall make an offer to purchase all of the Notes at 101% of their principal amount, and accrued and unpaid interest. We used the proceeds from the offering of the Notes to repay \$276.9 million outstanding under our prior revolving credit facility and to pay expenses and fees in connection therewith. As of July 31, 2021, the fair value of the Notes was \$415.5 million, which is based on borrowing rates currently required of notes with similar terms, maturity and credit risk.

On December 16, 2019, we also entered into a senior secured \$650.0 million credit agreement (the "Credit Agreement") with a syndicate of banks and Bank of America, National Association as administrative agent to among other things, provide for enhanced financial flexibility. See Note 2—*Long-Term Debt* for a description of the Credit Agreement. We had a total of \$644.5 million and \$646.0 million available under our \$650.0 million five-year senior secured revolving credit facility (the "Revolver") after \$5.5 million and \$4.0 million of standby letters of credit had been issued as of July 31, 2021 and April 30, 2021, respectively. We had a total of \$11.7 million and \$11.0 million of standby letters of credits with other financial institutions as of July 31, 2021 and April 30, 2021, respectively. The standby letters of credits were generally issued as a result of entering into office premise leases.

On December 8, 2014, the Board of Directors adopted a dividend policy to distribute to our stockholders a regular quarterly cash dividend of \$0.10 per share. Every quarter since the adoption of the dividend policy, the Company has declared a quarterly dividend. On June 21, 2021, the Board of Directors approved a 20% increase to our quarterly dividend, which is now at \$0.12 per share. The declaration and payment of future dividends under the quarterly dividend program will be at the discretion of the Board of Directors and will depend upon many factors, including our earnings, capital requirements, financial condition, the terms of our indebtedness and other factors our Board of Directors may deem to be relevant. Our Board of Directors may, however, amend, revoke or suspend our dividend policy at any time and for any reason.

On March 6, 2019, our Board of Directors approved an increase to the share repurchase program of approximately \$200 million, which at the time brought our available capacity to repurchase shares in the open market or privately negotiated transactions to approximately \$250 million. The Company repurchased approximately \$2.5 million of the Company's stock during the three months ended July 31, 2021, compared to none in the year-ago quarter. As of July 31, 2021, \$125.4 million remained available for common stock repurchases under our share repurchase program. Any decision to continue to execute our currently outstanding share repurchase program will depend on our earnings, capital requirements, financial condition and other factors considered relevant by our Board of Directors. The Credit Agreement permits us to pay dividends to our stockholders and make share repurchases so long as there is no default under the Credit Agreement, our total funded debt to adjusted EBITDA ratio (as set forth in the Credit Agreement, the "consolidated net leverage ratio") is no greater than 4.00 to 1.00, and pro forma liquidity is at least \$50 million, including the revolving credit commitment minus amounts outstanding on the Revolver, issued letters of credit and swing loans. Furthermore, our Notes allow us to pay \$25 million of dividends per fiscal year with no restrictions plus an unlimited amount of dividends so long as our consolidated total leverage ratio is not greater than 3.50 to 1.00, and there is no default under the indenture governing the Notes.

Our performance is subject to the general level of economic activity in the geographic regions and the industries we service. We believe, based on current economic conditions, that our cash on hand and funds from operations and the Credit Agreement will be sufficient to meet anticipated working capital, capital expenditures, general corporate requirements, debt repayments, share repurchases and dividend payments under our dividend policy during the next 12 months. However, if COVID-19 continues to persist or worsen, or the national or global economy, credit market conditions and/or labor markets were to deteriorate in the future, such changes could put negative pressure on demand for our services and affect our operating cash flows. If these conditions were to persist over an extended period of time, we may incur negative cash flows and it might require us to access additional borrowings under the Credit Agreement to meet our capital needs and/or discontinue our share repurchases and dividend policy.

Cash and cash equivalents and marketable securities were \$904.3 million and \$1,097.1 million as of July 31, 2021 and April 30, 2021, respectively. Net of amounts held in trust for deferred compensation plans and accrued bonuses, cash and marketable securities were \$614.2 million and \$642.1 million at July 31, 2021 and April 30, 2021, respectively. As of July 31, 2021 and April 30, 2021, we held \$395.0 million and \$382.8 million, respectively of cash and cash equivalents in foreign locations, net of amounts held in trust for deferred compensation plans and to pay fiscal 2021 and 2020 annual bonuses. Cash and cash equivalents consist of cash and highly liquid investments purchased with original maturities of three months or less. Marketable securities consist of mutual funds and investments in commercial paper, corporate notes/bonds and U.S. Treasury and Agency securities. The primary objectives of our investment in mutual funds are to meet the obligations under certain of our deferred compensation plans, while the commercial paper, corporate notes/bonds and U.S. Treasury and Agency securities are available for general corporate purposes.

As of July 31, 2021 and April 30, 2021, marketable securities of \$255.0 million and \$246.4 million, respectively, included equity securities of \$181.1 million (net of gross unrealized gains of \$33.9 million) and \$175.6 million (net of gross unrealized gains of \$30.0 million and gross unrealized losses of \$0.1 million), respectively, were held in trust for settlement of our obligations under certain deferred compensation plans, of which \$171.3 million and \$166.5 million, respectively, are classified as non-current. These marketable securities were held to satisfy vested obligations totaling \$171.2 million and \$157.3 million as of July 31, 2021 and April 30, 2021, respectively. Unvested obligations under the deferred compensation plans totaled \$24.7 million and \$26.5 million as of July 31, 2021 and April 30, 2021, respectively.

The net increase in our working capital of \$46.3 million as of July 31, 2021 compared to April 30, 2021 is primarily attributable to a decrease in compensation and benefits payable and an increase in accounts receivable, partially offset by a decrease in cash and cash equivalents. The decrease in cash and cash equivalents and compensation and benefits payable was primarily

due to payments of annual bonuses earned in fiscal 2021 and paid during the first quarter of fiscal 2022. The increase in accounts receivable was due to an increase in fee revenue and an increase in days of sales outstanding, which went from 57 days to 67 days (which is consistent with historical experience) from April 30, 2021 to July 31, 2021. Cash used by operating activities was \$160.5 million in the three months ended July 31, 2021, an increase in cash used of \$16.2 million, compared to \$144.3 million in the three months ended July 31, 2020.

Cash used in investing activities was \$10.4 million in the three months ended July 31, 2021 compared to \$13.2 million in the year-ago quarter. A decrease in cash used in investing activities was primarily due to an increase in proceeds from life insurance policies of \$1.7 million and a decrease in the purchase of marketable securities net of sale/maturities of \$1.2 million during the three months ended July 31, 2021 compared to the year-ago quarter.

Cash used in financing activities was \$23.7 million in the three months ended July 31, 2021 compared to \$7.8 million in the three months ended July 31, 2020. The increase in cash used in financing activities was primarily due to higher cash used to repurchase shares of common stock to satisfy tax withholding requirements upon the vesting of restricted stock of \$17.6 million in the three months ended July 31, 2021 compared to \$4.4 million in the year-ago quarter. The rest of the change was due to \$2.5 million repurchases of the Company's common stock in three months ended July 31, 2021 compared to none in the year ago quarter.

#### **Cash Surrender Value of Company-Owned Life Insurance Policies, Net of Loans**

We purchased COLI policies or contracts insuring the lives of certain employees eligible to participate in the deferred compensation and pension plans as a means of funding benefits under such plans. As of July 31, 2021 and April 30, 2021, we held contracts with gross cash surrender value ("CSV") of \$243.2 million and \$241.3 million, respectively. Total outstanding borrowings against the CSV of COLI contracts was \$80.0 million as of July 31, 2021 and April 30, 2021. Such borrowings do not require annual principal repayments, bear interest primarily at variable rates and are secured by the CSV of COLI contracts. At July 31, 2021 and April 30, 2021, the net cash surrender value of these policies was \$163.2 million and \$161.3 million, respectively.

#### **Long-Term Debt**

On December 16, 2019, we completed a private placement of the Notes with a \$400 million principal amount. We may redeem the Notes prior to maturity, subject to certain limitations and premiums defined in the indenture governing the Notes. At any time prior to December 15, 2022, we may redeem at a redemption price equal to 100% of the principal plus the Applicable Premium (as defined in the indenture), and accrued and unpaid interest. At any time prior to December 15, 2022, we may use the proceeds of certain equity offerings to redeem up to 35% of the aggregate principal amount of the Notes, including any permitted additional Notes, at a redemption price equal to 104.625% of the principal amount and accrued and unpaid interest. At any time and from time to time on or after December 15, 2022, we may redeem the Notes at the applicable redemption prices set forth in the table below, plus accrued and unpaid interest, if redeemed during the 12-month period beginning on December 15 of each of the years indicated:

Year	Percentage
2022	102.313%
2023	101.156%
2024 and thereafter	100.000%

The fair value of the Notes is classified as a Level 2 measurement in the fair value hierarchy.

On December 16, 2019, we also entered into the senior secured \$650.0 million Credit Agreement with a syndicate of banks and Bank of America. The Credit Agreement provides for the \$650.0 million Revolver. The principal balance of the Revolver is due on the date of its termination. The Revolver matures on December 16, 2024 and any unpaid principal balance is payable on this date. The Revolver may also be prepaid and terminated early by us at any time without premium or penalty (subject to customary LIBOR breakage fees).

At our option, loans issued under the Credit Agreement will bear interest at either LIBOR or an alternate base rate, in each case plus the applicable interest rate margin. The interest rate applicable to loans outstanding under the Credit Agreement may fluctuate between LIBOR plus 1.25% per annum to LIBOR plus 2.00% per annum, in the case of LIBOR borrowings (or between the alternate base rate plus 0.125% per annum and the alternate base rate plus 1.00% per annum, in the alternative), based upon our consolidated net leverage ratio at such time. In addition, we are required to pay to the lenders a quarterly commitment fee ranging from 0.175% to 0.35% per annum on the average daily unused amount of the Revolver, based upon our consolidated net leverage ratio at such time, and fees relating to the issuance of letters of credit.

As of July 31, 2021 and April 30, 2021, there were no amounts outstanding under the Revolver. The unamortized debt issuance costs associated with the Credit Agreement were \$3.1 million as of July 31, 2021 and \$3.3 million as of April 30, 2021. As of July 31, 2021, we were in compliance with our debt covenants.

We had a total of \$644.5 million and \$646.0 million available under the Revolver after \$5.5 million and \$4.0 million of standby letters of credit had been issued as of July 31, 2021 and April 30, 2021, respectively. We had a total of \$11.7 million and \$11.0 million of standby letters of credits with other financial institutions as of July 31, 2021 and April 30, 2021, respectively. The standby letters of credits were generally issued as a result of entering into office premise leases.

Other than the factors discussed in this section and the potential impacts of COVID-19 on our business, we are not aware of any other trends, demands or commitments that would materially affect liquidity or those that relate to our resources as of July 31, 2021.

#### **Off-Balance Sheet Arrangements**

We have no off-balance sheet arrangements and have not entered into any transactions involving unconsolidated, special purpose entities. We had no material changes in contractual obligations as of July 31, 2021, as compared to those disclosed in our table of contractual obligations included in our Annual Report.

#### **Critical Accounting Policies**

Preparation of this Quarterly Report on Form 10-Q requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates and assumptions and changes in the estimates are reported in current operations as new information is learned or upon the amounts becoming fixed or determinable. In preparing our interim consolidated financial statements and accounting for the underlying transactions and balances, we apply our accounting policies as disclosed in the notes to our consolidated financial statements. We consider the policies related to revenue recognition, performance related bonuses, deferred compensation, carrying values of receivables, goodwill, intangible assets, leases and recoverability of deferred income taxes as critical to an understanding of our interim consolidated financial statements because their application places the most significant demands on management's judgment and estimates. Specific risks for these critical accounting policies are described in the Form 10-K. There have been no material changes in our critical accounting policies since the end of fiscal 2021.

#### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

As a result of our global operating activities, we are exposed to certain market risks, including foreign currency exchange fluctuations and fluctuations in interest rates. We manage our exposure to these risks in the normal course of our business as described below.

##### **Foreign Currency Risk**

Substantially all our foreign subsidiaries' operations are measured in their local currencies. Assets and liabilities are translated into U.S. dollars at the rates of exchange in effect at the end of each reporting period and revenue and expenses are translated at average rates of exchange during the reporting period. Resulting translation adjustments are reported as a component of accumulated other comprehensive loss, net on our consolidated balance sheets.

Transactions denominated in a currency other than the reporting entity's functional currency may give rise to foreign currency gains or losses that impact our results of operations. Historically, we have not realized significant foreign currency gains or losses on such transactions. During the three months ended July 31, 2021 and 2020, we recorded foreign currency losses of \$0.2 million and \$0.7 million, respectively, in general and administrative expenses in the consolidated statements of operations.

Our exposure to foreign currency exchange rates is primarily driven by fluctuations involving the following currencies — U.S. Dollar, Pound Sterling, Euro, Canadian Dollar, Singapore Dollar, Swiss Franc, Korean Won, Indian Rupee, Brazilian Real and South African Rand. Based on balances exposed to fluctuation in exchange rates between these currencies as of July 31, 2021, a 10% increase or decrease in the value of these currencies could result in a foreign exchange gain or loss of \$12.2 million. We have a program that primarily utilizes foreign currency forward contracts to offset the risks associated with the effects of certain foreign currency exposures. These foreign currency forward contracts are neither used for trading purposes nor are they designated as hedging instruments pursuant to Accounting Standards Codification 815, *Derivatives and Hedging*.

##### **Interest Rate Risk**

Our exposure to interest rate risk is limited to our Revolver, borrowings against the CSV of COLI contracts and to a lesser extent our fixed income debt securities. As of July 31, 2021, there were no amounts outstanding under the Revolver. At our option, loans issued under the Credit Agreement bear interest at either LIBOR or an alternate base rate, in each case plus the applicable interest rate margin. The interest rate applicable to loans outstanding under the Credit Agreement may fluctuate between LIBOR plus 1.125% per annum to LIBOR plus 2.00% per annum, in the case of LIBOR borrowings (or between the

alternate base rate plus 0.125% per annum and the alternate base rate plus 1.00% per annum, in the alternative), based upon our total funded debt to adjusted EBITDA ratio (as set forth in the Credit Agreement, the "consolidated net leverage ratio") at such time. In addition, we are required to pay the lenders a quarterly commitment fee ranging from 0.175% to 0.35% per annum on the average daily unused amount of the Revolver, based upon our consolidated net leverage ratio at such time, and fees relating to the issuance of letters of credit.

We had \$80.0 million of borrowings against the CSV of COLI contracts as of July 31, 2021 and April 30, 2021, bearing interest primarily at variable rates. The risk of fluctuations in these variable rates is minimized by the fact that we receive a corresponding adjustment to our borrowed funds crediting rate, which has the effect of increasing the CSV on our COLI contracts.

#### **Item 4. Controls and Procedures**

a) Evaluation of Disclosure Controls and Procedures.

As of the end of the period covered by this Quarterly Report on Form 10-Q, management, our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures and internal controls over financial reporting. Based on their evaluation of our disclosure controls and procedures conducted as of the end of the period covered by this Quarterly Report on Form 10-Q, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act of 1934 (the "Exchange Act")) were effective as of July 31, 2021.

b) Changes in Internal Control over Financial Reporting.

There were no changes in our internal control over financial reporting during the three months ended July 31, 2021 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

## PART II. OTHER INFORMATION

### Item 1. Legal Proceedings

From time to time, we are involved in litigation both as a plaintiff and a defendant, relating to claims arising out of our operations. As of the date of this report, we are not engaged in any legal proceedings that are expected, individually or in the aggregate, to have a material adverse effect on our business, financial condition or results of operations.

### Item 1A. Risk Factors

In our Form 10-K, we described the material factors, events, and uncertainties that make an investment in our securities risky. Those risk factors should be considered carefully, together with all other information in that Form 10-K and our subsequent filings with the SEC. It does not address all of the risks that we face, and additional risks not presently known to us or that we currently deem immaterial may also arise and impair our business operations. As of the date of this report, there have been no material changes to the risk factors described in our Form 10-K.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

#### Issuer Purchases of Equity Securities

The following table summarizes common stock repurchased by us during the quarter ended July 31, 2021:

	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly- Announced Programs (2)	Approximate Dollar Value of Shares That May Yet be Purchased Under the Programs (2)
May 1, 2021— May 31, 2021	—	\$ —	—	\$127.9 million
June 1, 2021— June 30, 2021	1,161	\$ 66.92	—	\$127.9 million
July 1, 2021— July 31, 2021	295,613	\$ 67.70	37,696	\$125.4 million
Total	296,774	\$ 67.70	37,696	

(1) Represents withholding of 259,078 shares to cover taxes on vested restricted shares, in addition to shares purchased as part of a publicly announced program.

(2) On March 6, 2019, our Board of Directors approved an increase to our share repurchase program to an aggregate of \$250 million. The shares can be repurchased in open market transactions or privately negotiated transactions at the Company's discretion. The share repurchase program has no expiration date. We repurchased approximately \$2.5 million of the Company's common stock under the program during the first quarter of fiscal 2022.

Our Credit Agreement, dated December 16, 2019, permits us to pay dividends to our stockholders and make share repurchases so long as there is no default under our Credit Agreement, the consolidated net leverage ratio, which uses adjusted EBITDA, is no greater than 4.00 to 1.00 and our pro forma liquidity is at least \$50.0 million. Furthermore, our Notes allow the Company to pay \$25 million of dividends per fiscal year with no restrictions plus an unlimited amount of dividends so long as the Company's consolidated total leverage ratio is not greater than 3.50 to 1.00 and the Company is not in default under the indenture governing the Notes.

## EXHIBIT 31.1

### CERTIFICATIONS

I, Gary D. Burnison, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Korn Ferry;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
