The Company services its clients with a core set of solutions that are anchored around talent and talent management – essentially touching every aspect of an employer's engagement with their employees. Korn Ferry's five core solutions are as follows: Organizational Strategy, Assessment and Succession, Leadership and Professional Development, Total Rewards, and Talent Acquisition. The Company's colleagues engage with clients through the delivery of one of the Company's core solutions as a point solution sale or through combining component parts of the Company's core solutions into an integrated solution. In either case, Korn Ferry is solving clients' most challenging business and human capital issues.

Basis of Consolidation and Presentation

The accompanying condensed financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Annual Report on Form 10-K for the year ended April 30, 2023 for the Company and its wholly and majority owned/controlled domestic and international subsidiaries. All intercompany balances and transactions have been eliminated in consolidation. The preparation of the condensed consolidated financial statements conform with United States ("U.S.") generally accepted accounting principles ("GAAP") and pursuant to the instructions to Form 10-Q and Article 10 of Regulation S-X and prevailing practice within the Company's different industries. The accompanying condensed consolidated financial statements include all adjustments consisting of normal recurring accruals and any other adjustments that management considers necessary for a fair presentation of the results for these periods. The results of operations for the interim periods are not necessarily indicative of the results for the entire fiscal year or any other period.

The Company considers events or transactions that occur after the balance sheet date but before the condensed consolidated financial statements are issued to provide additional evidence relative to certain estimates or to identify matters that require additional disclosures.

Use of Estimates and Uncertainties

The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could materially differ from these estimates, and changes in estimates are reported in current operations as new information is learned or upon the amounts becoming fixed or determinable.

Revenue Recognition

Substantially all fee revenue is derived from talent and organizational consulting services and digital sales, stand-alone or as part of a solution, fees for professional services related to executive and professional recruitment performed on a retained basis, interim services and RPO, either stand-alone or as part of a solution.

Revenue is recognized when control of the goods and services are transferred to the customer in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods and services. Revenue contracts with customers are evaluated based on the five-step model outlined in Accounting Standards Codification ("ASC") 606 ("ASC 606"), Revenue from Contracts with Customers: 1) identify the contract with a customer; 2) identify the performance obligation(s) in the contract; 3) determine the transaction price; 4) allocate the transaction price to the separate performance obligation(s); and 5) recognize revenue when (or as) each performance obligation is satisfied.

Consulting fee revenue is primarily recognized as services are rendered, measured by total hours incurred as a percentage of the total estimated hours at completion. It is possible that updated estimates for consulting engagements may vary from initial estimates with such updates being recognized in the period of determination. Depending on the timing of billings and services rendered, the Company accrues or defers revenue as appropriate.

KORN FERRY AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS
January 31, 2024 (continued)

Digital fee revenue is generated from IP platforms enabling large-scale, technology-based talent programs for pay, talent development, engagement, and assessment and is consumed directly by an end user or indirectly through a consulting engagement. Revenue is recognized as services are delivered and the Company has a legally enforceable right to payment. Revenue also comes from the sale of the Company's proprietary IP subscriptions, which are considered symbolic IP due to the dynamic nature of the content. As a result, revenue is recognized over the term of the contract. Functional IP licenses grant customers the right to use IP content via the delivery of a flat file. Because the IP content license has significant stand-alone functionality, revenue is recognized upon delivery and when an enforceable right to payment exists. Revenue for tangible and digital products sold by the Company, such as books and digital files, is recognized when these products are shipped.

Fee revenue from executive and professional search activities is generally one-third of the estimated first-year cash compensation of the placed candidate, plus a percentage of the fee to cover indirect engagement-related expenses. In addition to the search retainer, an uptick fee is billed when the actual compensation awarded by the client for a placement is higher than the estimated compensation. In the aggregate, upticks have been a relatively consistent percentage of the original estimated fee; therefore, the Company estimates upticks using the expected value method based on historical data on a portfolio basis. In a standard search engagement, there is one performance obligation, which is the promise to undertake a search. The Company generally recognizes such revenue over the course of a search and when it is legally entitled to payment as outlined in the billing terms of the contract. Any revenues associated with services that are provided on a contingent basis are recognized once the contingency is resolved, as this is when control is transferred to the customer. These assumptions determine the timing of revenue recognition for the reported period. In addition to talent acquisition for permanent placement roles, the Professional Search & Interim segment also offers recruitment services for interim roles. Interim roles are short term in duration, generally less than 12 months. Generally, each interim role is a separate performance obligation. The Company recognizes fee revenue over the duration that the interim resources' services are provided which also aligns to the contracted invoicing plan and enforceable right to payment.

RPO fee revenue is generated through two distinct phases: 1) the implementation phase and 2) the post-implementation recruitment phase. The fees associated with the implementation phase are recognized over the period that the related implementation services are provided. The post-implementation recruitment phase represents end-to-end recruiting services to clients for which there are both fixed and variable fees, which are recognized over the period that the related recruiting services are performed.

Allowance for Doubtful Accounts

An allowance is established for doubtful accounts by taking a charge to general and administrative expenses. The Company's expected credit loss allowance methodology for accounts receivable is developed using historical collection experience, current and future economic and market conditions and a review of the current status of customers' trade accounts receivable. Due to the short-term nature of such receivables, the estimate of the amount of accounts receivable that may not be collected is primarily based on historical loss-rate experience. When required, the Company adjusts the loss-rate methodology to account for current conditions and reasonable and supportable expectations of future economic and market conditions. The Company generally assesses future economic condition for a period of sixty to ninety days, which corresponds with the contractual life of its accounts receivables. After the Company exhausts all collection efforts, the amount of the allowance is reduced for balances written off as uncollectible.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less from the date of purchase to be cash equivalents. As of January 31, 2024 and April 30, 2023, the Company's investments in cash equivalents consisted of money market funds and commercial paper and as of January 31, 2024 also consisted of U.S. Treasury and Agency securities. The Company maintains its cash and cash equivalents in bank accounts that exceed federally insured FDIC limits. The Company has not experienced any losses in such accounts.

Marketable Securities

The Company currently has investments in marketable securities and mutual funds that are classified as either equity securities or available-for-sale debt securities. The classification of the investments in these marketable securities and mutual funds is assessed upon purchase and reassessed at each reporting period. These investments are recorded at fair value and are classified as marketable securities in the accompanying condensed consolidated balance sheets. The investments that the Company may sell within the next 12 months are carried as current assets.

The Company invests in mutual funds (for which market prices are readily available) that are held in trust to satisfy obligations under the Company's deferred compensation plans. Such investments are classified as equity securities and mirror the employees' investment elections in their deemed accounts in the Executive Capital Accumulation Plan and similar plans in Asia Pacific and Canada ("ECAP") from a pre-determined set of securities. Realized gains (losses) on marketable securities are determined by specific identification. Interest is recognized on an accrual basis; dividends are recorded as

earned on the ex-dividend date. Interest, dividend income and the changes in fair value in marketable securities are recorded in the accompanying condensed consolidated statements of operations in other income, net.

The Company also invests cash in excess of its daily operating requirements and capital needs primarily in marketable fixed income (debt) securities in accordance with the Company's investment policy, which restricts the type of investments that can be made. The Company's investment portfolio includes commercial paper, corporate notes/bonds and U.S Treasury and Agency securities. These marketable fixed income (debt) securities are classified as available-for-sale securities based on management's decision, at the date such securities are acquired, not to hold these securities to maturity or actively trade them. The Company carries these marketable debt securities at fair value based on the market prices for these marketable debt securities or similar debt securities whose prices are readily available. The changes in fair values, net of applicable taxes, are recorded as unrealized gains or losses as a component of comprehensive income unless the change is due to credit loss. A credit loss is recorded in the condensed consolidated statements of income in other income, net; any amount in excess of the credit loss is recorded as unrealized losses as a component of comprehensive income. Generally, the amount of the loss is the difference between the cost or amortized cost and its then current fair value; a credit loss is the difference between the discounted expected future cash flows to be collected from the debt security and the cost or amortized cost of the debt security. During the three and nine months ended January 31, 2024 and 2023, no amount was recognized as a credit loss for the Company's available for sale debt securities.

Fair Value of Financial Instruments

Fair value is the price the Company would receive to sell an asset or transfer a liability (exit price) in an orderly transaction between market participants. For those assets and liabilities recorded or disclosed at fair value, the Company determines the fair value based upon the quoted market price, if available. If a quoted market price is not available for identical assets, the fair value is based upon the quoted market price of similar assets. The fair values are assigned a level within the fair value hierarchy as defined below:

- **Level 1:** Observable inputs such as quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- **Level 2:** Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- **Level 3:** Unobservable inputs that reflect the reporting entity's own assumptions.

As of January 31, 2024 and April 30, 2023, the Company held certain assets that are required to be measured at fair value on a recurring basis. These included cash equivalents, accounts receivable, marketable securities and foreign currency forward contracts. The carrying amount of cash equivalents and accounts receivable approximates fair value due to the short-term maturity of these instruments. The fair values of marketable securities classified as equity securities are obtained from quoted market prices, and the fair values of marketable securities classified as available-for-sale and foreign currency forward contracts are obtained from a third party, which are based on quoted prices or market prices for similar assets and financial instruments.

Impairment of Long-Lived Assets

Long-lived assets include property, equipment, right-of-use ("ROU") assets and software developed or obtained for internal use. In accordance with ASC 360, *Property, Plant and Equipment*, management reviews the Company's recorded long-lived assets for impairment annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be fully recoverable. Events relating to recoverability may include significant unfavorable changes in business conditions, recurring losses, or a forecasted inability to achieve break-even operating results over an extended period. The Company determines the extent to which an asset may be impaired based upon its expectation of the asset's future usability, as well as on a reasonable assurance that the future cash flows associated with the asset will be in excess of its carrying amount. If the total of the expected undiscounted future cash flows is less than the carrying amount of the asset, a loss is recognized for the difference between fair value and the carrying value of the asset. During the nine months ended January 31, 2024, the Company reduced its real estate footprint and as a result, the Company recognized an impairment charge of ROU assets of \$1.6 million and an impairment of leasehold improvements and furniture and fixtures of \$0.1 million, both recorded in the condensed consolidated statements of income in general and administrative expenses. During the nine months ended January 31, 2024, the Company also recognized a \$1.5 million software impairment charge in the Digital segment, which was recorded in the condensed consolidated statements of income in general and administrative expenses. During the three and nine months ended January 31, 2023, the Company reduced its real estate footprint and as a result, the Company recorded an impairment charge of ROU assets of \$5.5 million and an impairment of leasehold improvements and furniture and fixtures of \$4.4 million, both recorded in the condensed consolidated statements of income in general and administrative expenses.

Goodwill and Intangible Assets

Goodwill represents the excess of the purchase price over the fair value of assets acquired. Goodwill is tested for impairment annually and more frequently if events or changes in circumstances indicate that it is more likely than not that the asset is impaired. Results of the annual qualitative impairment test performed as of January 31, 2024, indicated that the fair value of each of the reporting units exceeded its carrying amount. As a result, no impairment charge was recognized. As of April 30, 2023, there were no indicators of potential impairment with respect to the Company's goodwill that would require further testing.

Intangible assets primarily consist of customer lists, non-compete agreements, proprietary databases and IP. Intangible assets are recorded at their estimated fair value at the date of acquisition and are amortized in a pattern in which the asset is consumed, if that pattern can be reliably determined, or using the straight-line method over their estimated useful lives, which range from one to 24 years. For intangible assets subject to amortization, an impairment loss is recognized if the carrying amount of the intangible assets is not recoverable and exceeds fair value. The carrying amount of the intangible assets is considered not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from use of the asset. The Company reviewed its intangible assets and did not identify any impairment as of January 31, 2024 and April 30, 2023.

Restructuring Charges, Net

The Company accounts for its restructuring charges as a liability when the obligations are incurred and records such charges at fair value. Changes in the estimates of the restructuring charges are recorded in the period the change is determined.

Earnings Per Share

ASC 260, *Earnings Per Share*, requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividends prior to vesting as a separate class of securities in calculating earnings per share. The Company has granted and expects to continue to grant to certain employees under its restricted stock agreements, grants that contain non-forfeitable rights to dividends. Such grants are considered participating securities. Therefore, the Company is required to apply the two-class method in calculating earnings per share. The two-class method of computing earnings per share is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings. The dilutive effect of participating securities is calculated using the more dilutive of the treasury method or the two-class method.

Basic earnings per common share was computed using the two-class method by dividing basic net earnings attributable to common stockholders by the weighted-average number of common shares outstanding. Diluted earnings per common share was computed using the two-class method by dividing diluted net earnings attributable to common stockholders by the weighted-average number of common shares outstanding plus dilutive common equivalent shares. Dilutive common equivalent shares include all in-the-money outstanding options or other contracts to issue common stock as if they were exercised or converted. Financial instruments that are not in the form of common stock, but when converted into common stock increase earnings per share, are anti-dilutive and are not included in the computation of diluted earnings per share.

Recent Accounting Standards - Not Yet Adopted

In November 2023, the Financial Accounting Standards Board issued an amendment in accounting update for all public entities that are required to report segment information in accordance with Topic 280, Segment Reporting. The amendments in this update improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expense. The amendments in this update are effective for fiscal years beginning after December 15, 2023, and interim periods with fiscal years beginning after December 15, 2024. The Company will adopt this guidance in its fiscal year beginning May 1, 2024. The adoption of this guidance is not anticipated to have a material impact on the condensed consolidated financial statements.

In December 2023, the Financial Accounting Standards Board issued an amendment in accounting update for income taxes disclosures. The new amendments provide improvements to income tax disclosures by requiring specific categories in the rate reconciliation and disaggregated information for income taxes paid. The amendments of this update are effective for annual periods beginning after December 15, 2024, and should be applied on a prospective basis. The Company will adopt this guidance in its fiscal year beginning May 1, 2025. The adoption of this guidance is not anticipated to have a material impact on the condensed consolidated financial statements.

Unvested obligations under the deferred compensation plans totaled \$22.3 million and \$21.9 million as of January 31, 2024 and April 30, 2023, respectively. During the three and nine months ended January 31, 2024, the fair value of the investments increased; therefore, the Company recognized a gain of \$23.8 million and \$22.8 million, respectively, which was recorded in other income, net. During the three and nine months ended January 31, 2023, the fair value of the investments increased; therefore, the Company recognized a gain of \$12.7 million and \$3.0 million, respectively, which was recorded in other income, net.

As of January 31, 2024, available-for-sale marketable securities had remaining maturities ranging from 1 month to 21 months. During the three and nine months ended January 31, 2024, there were \$4.4 million and \$30.6 million in sales/maturities of available-for-sale marketable securities, respectively. During the three and nine months ended January 31, 2023, there were \$14.3 million and \$47.3 million in sales/maturities of available-for-sale marketable securities, respectively. Investments in marketable securities that are held in trust for settlement of the Company's vested obligations under the ECAP are equity securities and are based upon the investment selections the employee elects from a pre-determined set of securities in the ECAP and the Company invests in equity securities to mirror these elections. As of January 31, 2024 and April 30, 2023, the Company's investments in equity securities consisted of mutual funds for which market prices are readily available. Unrealized gains recorded for the period that relate to equity securities still held as of January 31, 2024 were \$20.9 million. Unrealized losses recorded for the period that relate to equity securities still held as of January 31, 2023 were \$2.8 million.

Foreign Currency Forward Contracts Not Designated as Hedges

The fair value of derivatives not designated as hedge instruments are as follows:

| | January 31, 2024 | | April 30, 2023 |
|------------------------------------|---------------------|-------|-------------------|
| | (in thousands) | | |
| Derivative assets: | | | |
| Foreign currency forward contracts | \$ | 1,032 | \$ 2,813 |
| Derivative liabilities: | | | |
| Foreign currency forward contracts | \$ | 381 | \$ 680 |

As of January 31, 2024, the total notional amounts of the forward contracts purchased and sold were \$84.1 million and \$33.7 million, respectively. As of April 30, 2023, the total notional amounts of the forward contracts purchased and sold were \$112.7 million and \$41.1 million, respectively. The Company recognizes forward contracts as a net asset or net liability on the condensed consolidated balance sheets as such contracts are covered by master netting agreements. During the three and nine months ended January 31, 2024, the Company incurred gains of \$2.4 million and \$0.9 million, respectively, related to forward contracts which are recorded in general and administrative expenses in the accompanying condensed consolidated statements of income. During the three and nine months ended January 31, 2023, the Company incurred gains of \$3.3 million and \$1.2 million, respectively, related to forward contracts which are recorded in general and administrative expenses in the accompanying condensed consolidated statements of income. These foreign currency gains related to forward contracts offset foreign currency losses that result from transactions denominated in a currency other than the Company's functional currency. The cash flows related to foreign currency forward contracts are included in cash flows from operating activities.

6. Deferred Compensation and Retirement Plans

The Company has several deferred compensation and retirement plans for eligible consultants and vice presidents that provide defined benefits to participants based on the deferral of current compensation or contributions made by the Company subject to vesting and retirement or termination provisions. Among these plans is a defined benefit pension plan for certain employees in the U.S. The assets of this plan are held separately from the assets of the sponsor in self-administered funds. All other defined benefit obligations from other plans are unfunded.

The components of net periodic benefit costs are as follows:

| | Three Months Ended January 31, | | Nine Months Ended January 31, | |
|---|-----------------------------------|------------------|----------------------------------|------------------|
| | 2024 | 2023 | 2024 | 2023 |

(1) The expected long-term rate of return on plan assets was 6.00% and 5.50% for January 31, 2024 and 2023, respectively.

(2) The service cost, interest cost and the other components of net periodic benefit costs are included in compensation and benefits expense, interest expense, net and other income, net, respectively, on the condensed consolidated statements of income.

January 31, 2024 (continued)

The Company purchased company-owned life insurance ("COLI") contracts insuring the lives of certain employees eligible to participate in the deferred compensation and pension plans as a means of setting aside funds to cover such plans. The gross cash surrender value ("CSV") of these contracts of \$293.4 million and \$275.1 million as of January 31, 2024 and April 30, 2023, respectively, was offset by outstanding policy loans of \$77.0 million and \$77.1 million in the accompanying condensed consolidated balance sheets as of January 31, 2024 and April 30, 2023, respectively. The CSV value of the underlying COLI investments increased by \$2.5 million and \$6.4 million during the three and nine months ended January 31, 2024, respectively, and was recorded as a decrease in compensation and benefits expense in the accompanying condensed consolidated statements of income. The CSV value of the underlying COLI investment increased by \$2.5 million and \$7.4 million during the three and nine months ended January 31, 2023, respectively, and was recorded as a decrease in compensation and benefits expense in the accompanying condensed consolidated statements of income.

The Company's ECAP is intended to provide certain employees an opportunity to defer their salary and/or bonus on a pre-tax basis. In addition, the Company, as part of its compensation philosophy, makes discretionary contributions into the ECAP and such contributions may be granted to key employees annually based on the employee's performance. Certain key members of management may also receive Company ECAP contributions upon commencement of employment. The Company amortizes these contributions on a straight-line basis over the service period, generally a five year period. Participants have the ability to allocate their deferrals among a number of investment options and may receive their benefits at termination, retirement or 'in service' either in a lump sum or in quarterly installments over one-to-15 years. The ECAP amounts that are expected to be paid to employees over the next 12 months are classified as a current liability included in compensation and benefits payable on the accompanying condensed consolidated balance sheets.

The ECAP is accounted for whereby the changes in the fair value of the vested amounts owed to the participants are adjusted with a corresponding charge (or credit) to compensation and benefits costs. During the three and nine months ended January 31, 2024, deferred compensation liability increased; therefore, the Company recognized an increase in compensation expense of \$22.5 million and \$22.7 million, respectively. Offsetting the increases in compensation and benefits expense was an increase in the fair value of marketable securities (held in trust to satisfy obligations of the ECAP liabilities) of \$23.8 million and \$22.8 million during the three and nine months ended January 31, 2024, recorded in other income, net on the condensed consolidated statements of income. During the three and nine months ended January 31, 2023, deferred compensation liability increased; therefore, the Company recognized an increase in compensation expense of \$12.1 million and \$3.5 million, respectively. Offsetting the increases in compensation and benefits expense was an increase in the fair value of marketable securities (held in trust to satisfy obligations of the ECAP liabilities) of \$12.7 million and \$3.0 million during the three and nine months ended January 31, 2023, recorded in other income, net on the condensed consolidated statements of income. (see Note 5—*Financial Instruments*).

7. Fee Revenue

Contract Balances

A contract asset (unbilled receivables) is recorded when the Company transfers control of products or services before there is an unconditional right to payment. A contract liability (deferred revenue) is recorded when cash is received in advance of performance of the obligation. Deferred revenue represents the future performance obligations to transfer control of products or services for which we have already received consideration. Deferred revenue is presented in other accrued liabilities on the condensed consolidated balance sheets.

The following table outlines the Company's contract asset and liability balances as of January 31, 2024 and April 30, 2023:

| | January 31, 2024 | | April 30, 2023 |
|---------------------------------------|------------------|---------|----------------|
| | (in thousands) | | |
| Contract assets-unbilled receivables | \$ | 120,335 | \$ 99,442 |
| Contract liabilities-deferred revenue | \$ | 246,418 | \$ 257,067 |

During the nine months ended January 31, 2024, we recognized revenue of \$175.1 million that was included in the contract liabilities balance at the beginning of the period.

Performance Obligations

The Company has elected to apply the practical expedient to exclude the value of unsatisfied performance obligations for contracts with a duration of one year or less, which applies to all executive search, professional search and to most of the fee revenue from the interim business. As of January 31, 2024, the aggregate transaction price allocated to the performance obligations that are unsatisfied for contracts with an expected duration of greater than one year at inception was \$1,081.3 million. Of the \$1,081.3 million of remaining performance obligations, the Company expects to recognize approximately \$212.5 million in the remainder of fiscal 2024, \$523.1 million in fiscal 2025, \$212.3 million in fiscal 2026 and the remaining \$133.4 million in fiscal 2027 and thereafter. However, this amount should not be considered an indication of the Company's future revenue as contracts with an initial term of one year or less are not included. Further, our contract terms and conditions allow for clients to increase or decrease the scope of services and such changes do not increase or decrease a performance obligation until the Company has an enforceable right to payment.

Disaggregation of Revenue

The Company disaggregates its revenue by line of business and further by region for Executive Search. This information is presented in Note 10—*Segments*.

The following table provides further disaggregation of fee revenue by industry:

| Corporate notes/bonds | \$ 9,581 | \$ 123 | \$ 13,815 | \$ 232 | \$ — | \$ 20,489 | \$ 2,907 |

The Company only purchases high grade bonds that have a maturity from the date of purchase of no more than two years. The Company monitors the credit worthiness of its investments on a quarterly basis. The Company does not intend to sell the investments and does not believe it will be required to sell the investments before the investments mature and therefore recover the amortized cost basis.

9. Income Taxes

The provision for income tax was an expense of \$9.0 million and \$29.8 million in the three and nine months ended January 31, 2024, with an effective tax rate of 13.1% and 21.8%, respectively, compared to \$8.5 million and \$63.6 million in the three and nine months ended January 31, 2023, with an effective tax rate of 41.8% and 27.8%, respectively. In addition to the impact of U.S. state income taxes and the jurisdictional mix of earnings, which generally create variability in our effective tax rate over time, the decrease in the effective tax rate for the three and nine months ended January 31, 2024 was due to a \$9.7 million non-recurring tax benefit from actions taken in connection with the worldwide minimum tax that resulted in the release of a valuation allowance.

10. Segments

The Company has eight reportable segments: Consulting, Digital, Executive Search North America, Executive Search Europe, the Middle East and Africa ("EMEA"), Executive Search Asia Pacific, Executive Search Latin America, Professional Search & Interim and Recruitment Process Outsourcing ("RPO").

The Company evaluates performance and allocates resources based on the Company's chief operating decision maker ("CODM") review of 1) fee revenue and 2) adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA"). To the extent that such costs or charges occur, Adjusted EBITDA excludes restructuring charges, integration/acquisition costs, certain separation costs and certain non-cash charges (goodwill, intangible asset and other impairment charges). The CODM is not provided asset information by reportable segment.

Credit Facilities

On June 24, 2022, the Company entered into an amendment (the "Amendment") to its December 16, 2019 Credit Agreement (the "Credit Agreement"; as amended by the Amendment, the "Amended Credit Agreement") with a syndicate of banks and Bank of America, National Association as administrative agent. The Amended Credit Agreement provides for five-year senior secured credit facilities in an aggregate amount of \$1,150.0 million comprised of a \$650.0 million revolving credit facility (the "Revolver") and a \$500.0 million delayed draw term loan facility (the "Delayed Draw Facility", and together with the Revolver, the "Credit Facilities"). The Delayed Draw Facility expired on June 24, 2023.

As of January 31, 2024 and April 30, 2023, there was no outstanding liability under the Credit Facilities, and the Company was in compliance with its debt covenants. The Company had a total of \$645.4 million and \$1,145.4 million available under the Credit Facilities after \$4.6 million and \$4.6 million of standby letters of credit were issued as of January 31, 2024 and April 30, 2023, respectively. Of the amount available under the Credit Facilities as of April 30, 2023, \$500.0 million was under the Delayed Draw Facility that expired on June 24, 2023. The Company had a total of \$14.0 million and \$11.5 million of standby letters with other financial institutions as of January 31, 2024 and April 30, 2023, respectively. The standby letters of credit were generally issued as a result of entering into office premise leases.

Executive Summary

Korn Ferry (referred to herein as the "Company" or in the first-person notations "we," "our" and "us") is a global organizational consulting firm. We help clients synchronize strategy, operations and talent to drive superior business performance. We work with organizations to design their structures, roles and responsibilities. We help them hire the right people to bring their strategy to life. And we advise them on how to reward, develop and motivate their people.

We are pursuing a strategy to help Korn Ferry focus on clients and collaborate intensively across the organization. This approach is intended to build on the best of our past and give us a clear path to the future with focused initiatives to increase our client and commercial impact. Korn Ferry is transforming how clients address their talent management needs. We have evolved from a mono-line business to a multi-faceted consultancy business, giving our consultants more frequent and expanded opportunities to engage with clients.

The Company services its clients with a core set of solutions that are anchored around talent and talent management – essentially touching every aspect of an employer's engagement with their employees. Our five core solutions are as follows: Organizational Strategy, Assessment and Succession, Leadership and Professional Development, Total Rewards, and Talent Acquisition. Our colleagues engage with our clients through the delivery of one of our core solutions as a point solution sale or through combining component parts of our core solutions into an integrated solution. In either case, we are solving our clients' most challenging business and human capital issues.

Further differentiating our service offerings from our competitors is the unique combination of IP, content, and data sets that we have, which permeate all of our solution areas. For many years, we have been accumulating data around assessments of executives and professionals, pay, success profiles, organizational engagement and design, job architecture, and candidates. Integrating this unique collection of data into our service offerings provides our colleagues with differentiated points of view and solutions, as well as the ability to demonstrate the efficacy of all of our offerings.

Over the last four years, we have seen more change in the workplace than we did in the previous 15 years. Today, we find ourselves doing different work and working differently. Employees want to and they are working remotely. People don't want to be tethered to a single company for their entire career. Rather, they want to have many new and unique experiences across many different employers – a career nomad of sorts. There is growing demand for companies to have responsibilities that go beyond delivering profits to shareholders, covering areas such as Environmental, Social and Governance. The continual advancement of technologies like Generative AI creates a constant demand for workers to be upskilled or reskilled. All of these changes and disruptions lead to opportunities for Korn Ferry and make us more relevant than at any time in our history. We have core and integrated solutions that line up to these issues and help our clients solve their most pressing business and Human Capital challenges.

Leveraging the strong connection between our various service offering and our lines of business, we have an integrated go-to-market strategy. As we drive this strategy, a focal point for us is our Marquee and Regional account program which is comprised of about 350 of our top clients that generate approximately 38% of our year-to-date consolidated fee revenue. These accounts have Global Account Leaders assigned who help to orchestrate the delivery of core and integrated solutions that cut across multiple lines of business – effectively making all of the Firm's resources available as our clients tackle their business and Human Capital issues. Despite near-term headwinds, we believe Korn Ferry is poised for continued growth. We are capitalizing on the current and growing relevance of our core and integrated solutions which, in combination with the strong connections amongst all of our service offerings and our M&A activities, drives top-line synergies that have resulted in double digit fee revenue growth rates (CAGR) over the past twenty years.

Q3 FY'24 Performance Highlights

- We reported Q3 FY'24 fee revenue of \$668.7 million, a year-over-year decrease of 2%.
- Net income attributable to Korn Ferry was \$59.1 million with a margin of 8.8%, a 710bps increase compared to the year-ago quarter, while diluted earnings per share was \$1.13 in Q3 FY'24.

- Q3 FY'24 Adjusted EBITDA was \$101.7 million with an Adjusted EBITDA margin of 15.2%, a 110bps increase compared to the year-ago quarter.
- Consulting and Digital continued to show resilient business operations:
 - Consulting fee revenue grew 3% year-over-year.
 - Digital fee revenue grew 6% year-over-year with an 11% increase in Subscription & License fee revenue, which approximated \$33.0 million in the quarter.

In light of the challenging macroeconomic business environment arising from persistent inflationary pressures, rising interest rates, and global economic and geopolitical uncertainty, which we expected to result in near-term slowing or declines in fee revenue, on October 23, 2023, we initiated a plan (the "Plan") intended to align our workforce with our current business realities through position eliminations, which affected approximately eight percent of the Company's employees. The Plan resulted in restructuring charges, net of \$4.6 million and \$68.6 million during the three and nine months ended January 31, 2023, respectively.

The Company evaluates performance and allocates resources based on the chief operating decision maker's review of (1) fee revenue and (2) adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA"). To the extent that such charges occur, Adjusted EBITDA excludes restructuring charges, integration/acquisition costs, certain separation costs and certain non-cash charges (goodwill, intangible asset and other impairments charges). For the three months ended January 31, 2024, Adjusted EBITDA excluded \$4.6 million of restructuring charges, net, and \$3.9 million of integration/acquisition costs. For the nine months ended January 31, 2024, Adjusted EBITDA excluded \$68.6 million of restructuring charges, net, \$13.1 million of integration/acquisition costs, \$1.6 million of impairment of right-of-use assets, and \$1.6 million impairment of fixed assets. For the three and nine months ended January 31, 2023, Adjusted EBITDA excluded \$41.2 million of restructuring charges, net, \$5.5 million impairment of right-of-use assets, and \$4.4 million impairment of fixed assets. In addition, for the three and nine months ended January 31, 2023, Adjusted EBITDA further excluded \$2.5 million and \$9.5 million of integration/acquisition costs, respectively.

Consolidated and the subtotals of Executive Search Adjusted EBITDA and Adjusted EBITDA margin are non-GAAP financial measures and have limitations as analytical tools. They should not be viewed as a substitute for financial information determined in accordance with United States ("U.S.") generally accepted accounting principles ("GAAP") and should not be considered in isolation or as a substitute for analysis of the Company's results as reported under GAAP. In addition, they may not necessarily be comparable to non-GAAP performance measures that may be presented by other companies.

Management believes the presentation of these non-GAAP financial measures provides meaningful supplemental information regarding Korn Ferry's performance by excluding certain charges, items of income and other items that may not be indicative of Korn Ferry's ongoing operating results. The use of these non-GAAP financial measures facilitates comparisons to Korn Ferry's historical performance and the identification of operating trends that may otherwise be distorted by the factors discussed above. Korn Ferry includes these non-GAAP financial measures because management believes it is useful to investors in allowing for greater transparency with respect to supplemental information used by management in its evaluation of Korn Ferry's ongoing operations and financial and operational decision-making. The accounting policies for the reportable segments are the same as those described in the summary of significant accounting policies in the accompanying condensed consolidated financial statements, except that the above noted items are excluded to arrive at Adjusted EBITDA. Management further believes that Adjusted EBITDA is useful to investors because it is frequently used by investors and other interested parties to measure operating performance among companies with different capital structures, effective tax rates and tax attributes and capitalized asset values, all of which can vary substantially from company to company.

Liquidity and Capital Resources

The Company and its Board of Directors endorse a balanced approach to capital allocation. The Company's long-term priority is to invest in growth initiatives, such as the hiring of consultants, the continued development of IP and derivative products and services and the investment in synergistic, accretive merger and acquisition transactions that are expected to earn a return that is superior to the Company's cost of capital. Next, the Company's capital allocation approach contemplates the return of a portion of excess capital to stockholders, in the form of a regular quarterly dividend, subject to the factors discussed below and in the "Risk Factors" section of the Form 10-K. Additionally, the Company considers share repurchases on an opportunistic basis and subject to the terms of our Amended Credit Agreement (defined below), as well as using excess cash to repay the Notes.

On December 16, 2019, we completed a private placement of the Notes with a \$400.0 million principal amount pursuant to Rule 144A and Regulation S under the Securities Act of 1933, as amended. The Notes were issued with a \$4.5 million discount and will mature December 15, 2027, with interest payable semi-annually in arrears on June 15 and December 15 of each year, that commenced on June 15, 2020. The Notes represent senior unsecured obligations that rank equally in right of payment to all existing and future senior unsecured indebtedness. We may redeem the Notes prior to maturity, subject to certain limitations and premiums defined in the indenture governing the Notes. The Notes are guaranteed by each of our existing and future wholly owned domestic subsidiaries to the extent such subsidiaries guarantee our obligations under the Amended Credit Agreement (defined below). The indenture governing the Notes requires that, upon the occurrence of both a Change of Control and a Rating Decline (each as defined in the indenture), we shall make an offer to purchase all of the Notes at 101% of their principal amount, and accrued and unpaid interest. We used the proceeds from the offering of the Notes to repay \$276.9 million outstanding under our prior revolving credit facility and to pay expenses and fees in connection therewith. As of January 31, 2024, the fair value of the Notes was \$381.0 million, which is based on borrowing rates currently required of notes with similar terms, maturity and credit risk.

On June 24, 2022, we entered into an amendment (the "Amendment") to our December 16, 2019 Credit Agreement (the "Credit Agreement"; as amended by the Amendment, the "Amended Credit Agreement") with the lenders party thereto and Bank of America, National Association as administrative agent, to, among other things (i) extend the existing maturity date of the revolving facility to June 24, 2027, (ii) provide for a new delayed draw term loan facility as described below, (iii) replace the London interbank offered rate with Term SOFR, and (iv) replace the existing financial covenants with financial covenants described below. The Amended Credit Agreement provides for five-year senior secured credit facilities in an aggregate amount of \$1,150.0 million comprised of a \$650.0 million revolving credit facility (the "Revolver") and a \$500.0 million delayed draw term loan facility with the delayed draw having expired on June 23, 2023 (the "Delayed Draw Facility", and together with the Revolver, the "Credit Facilities"). The Amended Credit Agreement also provides that, under certain circumstances, the Company may incur term loans or increase the aggregate principal amount of revolving commitments by an aggregate amount of up to \$250.0 million plus an unlimited amount subject to a consolidated secured net leverage ratio of 3.25 to 1.00. The Company has a total of \$645.4 million and \$1,145.4 million available under the Credit Facilities after \$4.6 million and \$4.6 million of standby letters of credit have been issued as of January 31, 2024 and April 30, 2023, respectively. Of the amount available under the Credit Facilities as of April 30, 2023, \$500.0 million was under the Delayed

Draw Facility that expired on June 24, 2023. The Company had a total of \$14.0 million and \$11.5 million of standby letters with other financial institutions as of January 31, 2024 and April 30, 2023, respectively. The standby letters of credit were generally issued as a result of entering into office premise leases.

On December 8, 2014, the Board of Directors adopted a dividend policy to distribute to our stockholders a regular quarterly cash dividend of \$0.10 per share. Every quarter since the adoption of the dividend policy, the Company has declared a quarterly dividend. On June 21, 2021 and 2022, the Board of Directors increased the quarterly dividend to \$0.12 per share and \$0.15 per share, respectively. On June 26, 2023, the Board of Directors approved an increase of 20% in the quarterly dividend, which increased the quarterly dividend to \$0.18 per share. On December 5, 2023, the Board of Directors approved an increase of 83% in the quarterly dividend, which increased the quarterly dividend to \$0.33 per share. The Amended Credit Agreement permits us to pay dividends to our stockholders and make share repurchases so long as there is no default under the Amended Credit Agreement, our total funded debt to adjusted EBITDA ratio (as set forth in the Amended Credit Agreement, the “consolidated net leverage ratio”) is no greater than 5.00 to 1.00, and we are in pro forma compliance with our financial covenant. Furthermore, our Notes allow us to pay \$25.0 million of dividends per fiscal year with no restrictions plus an unlimited amount of dividends so long as our consolidated total leverage ratio is not greater than 3.50 to 1.00, and there is no default under the indenture governing the Notes. The declaration and payment of future dividends under the quarterly dividend program will be at the discretion of the Board of Directors and will depend upon many factors, including our earnings, capital requirements, financial conditions, the terms of our indebtedness and other factors our Board of Directors may deem to be relevant. Our Board of Directors may, however, amend, revoke or suspend our dividend policy at any time and for any reason.

On June 21, 2022, our Board of Directors approved an increase to the share repurchase program of approximately \$300 million, which at the time brought our available capacity to repurchase shares in the open market or privately negotiated transactions to \$318 million. The Company repurchased approximately \$29.6 million and \$80.5 million of the Company’s stock during the nine months ended January 31, 2024 and 2023, respectively. As of January 31, 2024, \$205.6 million remained available for common stock repurchases under our share repurchase program. Any decision to continue to execute our currently outstanding share repurchase program will depend on our earnings, capital requirements, financial condition and other factors considered relevant by our Board of Directors.

Our primary source of liquidity is the fee revenue generated from our operations, supplemented by our borrowing capacity under our Amended Credit Agreement. Our performance is subject to the general level of economic activity in the geographic regions and the industries we service. We believe, based on current economic conditions, that our cash on hand and funds from operations and the Amended Credit Agreement will be sufficient to meet anticipated working capital, capital expenditures, general corporate requirements, debt repayments, share repurchases and dividend payments under our dividend policy during the next 12 months and thereafter for the foreseeable future. However, if the national or global economy, credit market conditions and/or labor markets were to deteriorate in the future, including as a result of ongoing macroeconomic uncertainty due to inflation and a potential recession, such changes have and could put further negative pressure on demand for our services and affect our operating cash flows. If these conditions were to persist over an extended period of time, we may incur negative cash flows and it might require us to access additional borrowings under the Amended Credit Agreement to meet our capital needs and/or discontinue our share repurchases and dividend policy.

As of January 31, 2024 and April 30, 2023, we held \$383.9 million and \$395.2 million, respectively of cash and cash equivalents in foreign locations, net of amounts held in trust for deferred compensation plans and to pay accrued bonuses. Cash and cash equivalents consist of cash and highly liquid investments purchased with original maturities of three months or less. Marketable securities consist of mutual funds and investments in commercial paper, corporate notes/bonds and U.S. Treasury and Agency securities. The primary objectives of our investment in mutual funds are to meet the obligations under certain of our deferred compensation plans, while the commercial paper, corporate notes/bonds and U.S. Treasury and Agency securities are available for general corporate purposes.

As of January 31, 2024 and April 30, 2023, marketable securities of \$250.1 million and \$223.9 million, respectively, included equity securities of \$213.2 million (net of gross unrealized gains of \$22.5 million and gross unrealized losses of \$0.8 million) and \$187.8 million (net of gross unrealized gains of \$9.5 million and gross unrealized losses of \$8.7 million), respectively, were held in trust for settlement of our obligations under certain deferred compensation plans, of which \$192.5 million and \$176.1 million, respectively, are classified as non-current. These marketable securities were held to satisfy vested obligations totaling \$197.1 million and \$172.2 million as of January 31, 2024 and April 30, 2023, respectively. Unvested obligations under the deferred compensation plans totaled \$22.3 million and \$21.9 million as of January 31, 2024 and April 30, 2023, respectively.

The net increase in our working capital of \$39.7 million as of January 31, 2024 compared to April 30, 2023 is primarily attributable to a decrease in compensation and benefits payable combined with an increase in account receivables, partially offset by decreases in cash and cash equivalents. The decrease in cash and cash equivalents and compensation and benefits payable was primarily due to payments of annual bonuses earned in fiscal 2023 and paid during the first quarter of fiscal 2024. The increase in accounts receivable was due to an increase in days of sales outstanding, which went from 56 days to 69 days (which is consistent with historical experience) from April 30, 2023 to January 31, 2024. Cash provided by operating activities was \$22.1 million in the nine months ended January 31, 2024, a decrease of \$70.7 million, compared to the cash provided by operating activities of \$92.8 million in the nine months ended January 31, 2023.

Cash used in investing activities was \$44.5 million in the nine months ended January 31, 2024 compared to \$165.4 million in the year-ago period. A decrease in cash used in investing activities was primarily due to \$99.3 million in cash paid for the acquisition of Infinity Consulting Solutions in the nine months ended January 31, 2023 compared to no acquisition in the nine months ended January 31, 2024. Further contributing to this decrease was an increase in proceeds from life insurance policies of \$13.6 million and decreases in the purchase of marketable securities of \$12.8 million and property and equipment of \$10.8 million during the nine months ended January 31, 2024 compared to year-ago period. The decrease was partially offset by a decrease in proceeds received from sales/maturities of marketable securities of \$15.6 million during the nine months ended January 31, 2024 compared to year-ago period.

Cash used in financing activities was \$75.3 million in the nine months ended January 31, 2024 compared to \$130.1 million in the nine months ended January 31, 2023. The decrease in cash used in financing activities was primarily due to decreases in repurchases of the Company's common stock and cash used to repurchase shares of common stock to satisfy tax withholding requirements upon the vesting of restricted stock of \$52.3 million and \$11.5 million, respectively, in the nine months ended January 31, 2024 compared to the year-ago period. The decrease was partially offset by an increase in dividends paid to shareholders of \$12.0 million during the nine months ended January 31, 2024 compared to the year-ago period.

Cash Surrender Value of Company-Owned Life Insurance Policies, Net of Loans

We purchased COLI policies or contracts insuring the lives of certain employees eligible to participate in the deferred compensation and pension plans as a means of funding benefits under such plans. As of January 31, 2024 and April 30, 2023, we held contracts with gross cash surrender value of \$293.4 million and \$275.1 million, respectively. Total outstanding borrowings against the CSV of COLI contracts was \$77.0 million and \$77.1 million as of January 31, 2024 and April 30, 2023, respectively. Such borrowings do not require annual principal repayments, bear interest primarily at variable rates and are secured by the CSV of COLI contracts. At January 31, 2024 and April 30, 2023, the net cash surrender value of these policies was \$216.5 million and \$198.0 million, respectively.

Other than the factors discussed in this section, we are not aware of any other trends, demands or commitments that would materially affect liquidity or those that relate to our resources as of January 31, 2024.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements and have not entered into any transactions involving unconsolidated, special purpose entities. We had no material changes in contractual obligations as of January 31, 2024, as compared to those disclosed in our table of contractual obligations included in our Annual Report.

Critical Accounting Policies

Preparation of this Quarterly Report on Form 10-Q requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our condensed financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates and assumptions and changes in the estimates are reported in current operations as new information is learned or upon the amounts becoming fixed or determinable. In preparing our interim condensed consolidated financial statements and accounting for the underlying transactions and balances, we apply our accounting policies as disclosed in the notes to our condensed consolidated financial statements and in Form 10-K. There have been no material changes in our critical accounting policies since the end of fiscal 2023.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As a result of our global operating activities, we are exposed to certain market risks, including foreign currency exchange fluctuations and fluctuations in interest rates. We manage our exposure to these risks in the normal course of our business as described below.

Foreign Currency Risk

Substantially all our foreign subsidiaries' operations are measured in their local currencies. Assets and liabilities are translated into U.S. dollars at the rates of exchange in effect at the end of each reporting period and revenue and expenses are translated at daily rates of exchange during the reporting period. Resulting translation adjustments are reported as a component of accumulated other comprehensive loss, net on our condensed consolidated balance sheets.

Transactions denominated in a currency other than the reporting entity's functional currency may give rise to foreign currency gains or losses that impact our results of operations. Historically, we have not realized significant foreign currency gains or losses on such transactions. During the nine months ended January 31, 2024 and 2023, we recorded foreign currency losses of \$2.2 million and \$1.1 million, respectively, in general and administrative expenses in the condensed consolidated statements of income.

Our exposure to foreign currency exchange rates is primarily driven by fluctuations involving the following currencies — U.S. Dollar, Canadian Dollar, Pound Sterling, Euro, Polish Zloty, Danish Krone, Singapore Dollar, South Korean Won, Japanese Yen, and Mexican Peso. Based on balances exposed to fluctuation in exchange rates between these currencies as of January 31, 2024, a 10% increase or decrease in the value of these currencies could result in a foreign exchange gain or loss of \$11.2 million. We have a program that primarily utilizes foreign currency forward contracts to offset the risks associated with the effects of certain foreign currency exposures. These foreign currency forward contracts are neither used for trading purposes nor are they designated as hedging instruments pursuant to Accounting Standards Codification 815, *Derivatives and Hedging*.

Interest Rate Risk

Our exposure to interest rate risk is limited to our Credit Facilities, borrowings against the CSV of COLI contracts and to a lesser extent our fixed income debt securities. As of January 31, 2024, there were no amounts outstanding under the Credit Facilities. At our option, loans issued under the Amended Credit Agreement bear interest at either Term Secured Overnight Financing Rate ("SOFR") or an alternate base rate, in each case plus the applicable interest rate margin. The interest rate applicable to loans outstanding under the Amended Credit Agreement may fluctuate between Term SOFR plus a SOFR adjustment of 0.10%, plus 1.125% per annum to 2.00% per annum, in the case of Term SOFR borrowings (or between the alternate base rate plus 0.125% per annum and the alternate base rate plus 1.00% per annum, in the alternative), based upon our total funded debt to adjusted EBITDA ratio (as set forth in the Amended Credit Agreement, the "consolidated net leverage ratio") at such time. In addition, we are required to pay the lenders a quarterly commitment fee ranging from 0.175% to 0.300% per annum on the average daily unused amount of the Revolver, based upon our consolidated net leverage ratio at such time, a ticking fee of 0.20% per annum on the actual daily unused portion of the Delayed Draw Facility during the availability period of the Delayed Draw Facility (the availability of this facility expired on June 24, 2023), and fees relating to the issuance of letters of credit.

We had \$77.0 million and \$77.1 million of borrowings against the CSV of COLI contracts as of January 31, 2024 and April 30, 2023, respectively, bearing interest primarily at variable rates. We have sought to minimize the risk of fluctuations in these variable rates by the fact that we receive a corresponding adjustment to our borrowed funds crediting rate, which has the effect of increasing the CSV on our COLI contracts.

Item 4. Controls and Procedures

a) Evaluation of Disclosure Controls and Procedures.

As of the end of the period covered by this Quarterly Report on Form 10-Q, management, our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures and internal controls over financial reporting. Based on their evaluation of our disclosure controls and procedures conducted as of the end of the period covered by this Quarterly Report on Form 10-Q, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act of 1934 (the "Exchange Act")) were effective as of January 31, 2024.

b) Changes in Internal Control over Financial Reporting.

There were no changes in our internal control over financial reporting during the three months ended January 31, 2024 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are involved in litigation both as a plaintiff and a defendant, relating to claims arising out of our operations. As of the date of this report, we are not engaged in any legal proceedings that are expected, individually or in the aggregate, to have a material adverse effect on our business, financial condition or results of operations.

Item 1A. Risk Factors

In our Form 10-K, we described the material factors, events, and uncertainties that make an investment in our securities risky. Those risk factors should be considered carefully, together with all other information in that Form 10-K and our subsequent filings with the SEC. It does not address all of the risks that we face, and additional risks not presently known to us or that we currently deem immaterial may also arise and impair our business operations. As of the date of this report, there have been no material changes to the risk factors described in our Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The following table summarizes common stock repurchased by us during the quarter ended January 31, 2024:

(1) Represents withholding of 1,004 shares to cover taxes on vested restricted shares, in addition to shares purchased as part of a publicly announced program.

(2) On June 21, 2022, our Board of Directors approved an increase to the share repurchase program of \$300 million. The shares can be repurchased in open market transactions or privately negotiated transactions at the Company's discretion. The share repurchase program has no expiration date. We repurchased approximately \$21.0 million of the Company's common stock under the program during the third quarter of fiscal 2024.

The Amended Credit Agreement permits us to pay dividends to our stockholders and make share repurchases so long as there is no default under our Amended Credit Agreement, the Company's total funded debt to adjusted EBITDA ratio (as set forth in the Amended Credit Agreement, the "consolidated net leverage ratio"), is no greater than 5.00 to 1.00, and we are in pro forma compliance with our financial covenant. Furthermore, our Notes allow the Company to pay \$25.0 million of dividends per fiscal year with no restrictions plus an unlimited amount of dividends so long as the Company's consolidated total leverage ratio is not greater than 3.50 to 1.00 and the Company is not in default under the indenture governing the Notes.

Item 5. Other Information

(a) None

(b) Not applicable

(c) Trading Plans

Our directors and Section 16 officers may from time to time enter into plans or other arrangements for the purchase or sale of our shares that are intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or may represent a non-Rule 10b5-1 trading arrangement under the Exchange Act. During the quarter ended January 31, 2024, no director or Section 16 officer adopted or terminated any Rule 10b5-1 trading arrangements or non-Rule 10b5-1 trading arrangements (in each case, as defined in Item 408(a) of Regulation S-K).
